The Technology Advisory Group monitors compliance with Accreditation Standard IIIC and provides coordination for the periodic revision for the campus Technology Plan. The Technology Advisory Group is charged with developing and recommending the long-term campus technology plan based on college program review data and the District Technology Plan. It reports and makes recommendations to the Vice President of Business Services and the Budget and Resource Council (BRC). In addition, the Advisory Group reviews the plan annually, makes recommendations for revisions as needed, ranks priority of technology spending based on program review data, and serves as a forum for discussing campus technology issues.
