BACKGROUND

Ventura College's Title **V – *Velocidad* Grant (2012 – 2107)** has **six** Activity Objectives which relate to **four** goals:

Goal 1: Increase the number of students who transfer to four-year colleges (universities).

Objective 1: Increase the four-year Transfer Rate for all VC students

Objective 2: Increase the four-year Transfer Rate for Hispanic VC students

Objective 3: Decrease the gap between Transfer Rates of all VC students and Hispanic VC students.

Goal 2: Increase student success rates in high-risk/transfer barrier courses.

Objective 4: Increase the success rate of all VC students in high-risk/transfer barrier courses.

Objective 5: Decrease the gap in success rates between all VC students and Hispanic VC students.

Goal 3: Decrease success and achievement rate gaps between Hispanic students and the Ventura College average rates.

Objectives 3 and 5 will measure progress toward this goal.

Goal 4: Meet all recommendations related to WASC standards for Institutional Effectiveness.

Objective 6: All programs containing courses on the high-risk/transfer barrier list or required for transfer will achieve WASC's highest level for Program and Institutional SLO's.

TRANSFER VELOCITY PROJECT

Objectives 1–3 are concerned with increasing the number of VC students who transfer to four-year institutions. The number of student transfers and transfer rates will be ascertained by the **Transfer Velocity Project** (**TVP**).

The **TVP**, an initiative of the CCC Chancellor's Office, tracks CC **transfer cohorts** for **six years** to determine the **actual** number of students transferring to public or private four-year institutions within the United States. Actual transfers are authenticated by matching student data to one of the following databases:
  National Student Clearinghouse (NSC),
  University of California (UC), or
  California State University (CSU).

The **Transfer Rate** is computed by dividing the number of students enrolled at four-year institutions by the total size of the Transfer Velocity Cohort. The *baseline* cohort is comprised of individuals who were first-time students in **2005 – 2006**. The most recent cohort is individuals who were first-time students in **2008 – 2009**.

DASHBOARD DATA

Outcomes data for each of the **six** objectives are presented in a modified "dashboard" format on **pages 2 – 4**.

Dashboard data for **Objectives 1**, **2**, **3**, and **6** consist of a chart and a table. Each table contains data related to the specific objective, while the chart graphically displays annual performance outcomes associated with the particular objective. The last row in each table indicates whether or not the annual performance goal was met.

For **Objectives 4** and **5**, data are presented in a table format. These two objectives relate to student success in twenty high-risk/transfer barrier courses. Each of the twenty courses is listed separately and annual success percentage rate data will be entered for each course. The last row in each table indicates whether or not the annual performance goal was met.

Objective 1:

By 2017, increase the **four-year** TVP Transfer Rate for **all VC students** from **29%** to **32%**.
