V. POLICY AND PROCESS (Information or Discussion/Action)

A. End of year committee evaluation (results to be distributed before the meeting)

Results were reviewed. Everyone's work is much appreciated.

Challenge identified: Getting the information from CC to the entire division. A new communication mechanism needs would be helpful. Suggestion: Email division after meetings to fill them in on information.

Encourage everyone to connect back to Student Services.

Curriculum Workshops will continue for future training opportunities

Challenge identified: Training is needed – some faculty gets CurricUNET alerts and is not sure what to do with them.

B. Tech Review “Plan B”

Whether or not we get a volunteer to be the new Tech Review chair, they will only have 40% release time. The backlog will still remain if we all don't get involved.

There is an idea to have group review. But, group review of entire courses, or split the courses up per section and assign “experts”?

A concern raised with the assigning section experts, as the process could be fractured. Everyone should be an equal expert. An idea would be to have the Curriculum Committee Members in each department review that department's courses. Also, notice that information regarding the CurricUNET comments fields and the holdup it creates when the comments are not addressed should be sent out. Faculty may not know this is the cause of the holdup.

Think about the best ways to communicate with your divisions and departments.

(Discussion/Action; see attachment)**

A. New: MATH V31

This course is being created to accelerate 2 lower level math courses.

Fall semester, adopting multiple measures.

Question: In terms of advising students for this course, what should counselors say? What kind of students would be good for this course?

Students must understand this course is not designed to go at a slow pace. At the moment, the STEM students would benefit the most from this course. It will allow them to complete the lower level Math requirement faster.

IX. ADMINISTRATIVE CHANGES (Discussion/Action)

A. Economics ADT Discussion

The Economics ADT was reviewed and approved by the Curriculum Committee and DTRW-I committee soon after the current Articulation Officer (AO) and the current Curriculum Technician (CT) started their positions at VC.

In October 2017, while preparing to submit the degree to the Board of Trustees for approval, the CT asked the AO for a review of the program before submitting it to the BoT – neither knowing that at this point, the program could not be changed due to the previous committee approvals.

The AO offered her suggestions, and the CT made the adjustments and submitted the altered program for BoT consideration. The program was approved at the 12/13/16 BoT meeting as a different version than what was approved at previous Curriculum Committee and DTRW-I meetings.

The version approved at the BoT meeting was submitted to and approved by the State Chancellor's office on 3/15/17.

It was recommended at THIS (4/18/17) Curriculum Committee Meeting to notify the Economics Department and let them know the program on record was unintentionally altered and is different than what was originally intended.

***8/22/17: Recorder's Note: upon M. Bowen's discussion with the ECON department, it was agreed to keep the program in the form that was approved at Board of Trustees and the State Chancellor's Office.*
