# VENTURA COLLEGE Office of Research and Evaluation <br> Spring 2014 - Math Center 

- SUMMARY

## - Introduction

The Ventura College Math Center, located in room SCI-223A in the Sciences and Mathematics building, is funded through the college's Title V Velocidad Grant. The Math Center assists students at all mathematics levels in acquiring the skills they need to succeed in their current math class.

The study period consists of the spring 2014 term. Data for the study were extracted from SARSGRID (Math Center tutoring sessions) and the VCCCD Banner System (final grades).

## - Overview

Summary data for spring 2014 are presented in the table below.

| Tutoring Category | Spring 2014 |
| :--- | ---: |
| A. Number of Courses in which Tutoring was Provided | $\mathbf{1 1}$ |
| B. Unduplicated Number of Tutored Students | $\mathbf{7 9}$ |
| C. Unduplicated Number of Basic-Skills Students | $\mathbf{6 2}$ |
| D. Number of Student Visits to the Math Center | 288 |
| E. Number of Student-Discipline Sessions | $\mathbf{2 8 4}$ |

Explanations of Tutoring Categories:
SARS-GRID creates multiple records for each tutoring session. For example, a student who received tutoring in ENGL V03 would have a "History Code" record for that date plus a "Reason Code" record of ENGL V03 and possibly another record with a "Reason Code" of AA/RW (Reading Writing Center).
(A) "Number of Courses in which Tutoring was Provided": Count of the courses in which tutoring was provided.
(B) "Unduplicated Number of Tutored Students": Count of individual students who received tutoring services (many students received tutoring in more than one discipline).
(C) "Unduplicated Number of Individual Basic-Skills Students": Count of students who were coded AABSKSKL one/more times; even if there were no associated records with "Reason Codes" identifying specific basic skills.
(D) "Number of Student Visits to the Reading/Writing Center": Count of individual "History ID" numbers. A "History ID" number is created for every student-tutoring session. The "History ID" number may have more than one "Reason Code" associated with it, e.g., AA/RW, AABSKSKL, and ENGL V03.
(E) "Number of Student-Discipline Sessions": Count of all "Reason Codes" that are either a Subject Area (e.g., ENGL) or a Course ID (e.g., ENGL V03). Row (E) can be less than Row (D) as a result of staff not creating "Reason Code" records when students visit the RWC.

## - Success Rates in Basic Skills Courses

In spring 2014, the overall success rate for students who received tutoring in MATH V01, MATH V10, or MATH V11 was higher than the corresponding rate for non-tutored students in the same sections.

| Basic Skills | Spring 2014 |  |  |
| :--- | :---: | :---: | :---: |
| Tutoring Category | Enrolled | Success | Rate |
| Tutored Students | 17 | 9 | $52.9 \%$ |
| Non-Tutored Student | 404 | 156 | $38.6 \%$ |
| Difference in Rates |  |  |  |

## - Demographics of Tutored Students

In the table below, spring 2014 tutored students, whose Student IDs were matched to grade records, are categorized by ethnicity and gender. Students are counted for each course in which they received tutoring. Success rates for each demographic group are indicated in the right-hand column.

| Demographic Characteristic Demographic Group | Students |  | Successful |  |
| :---: | :---: | :---: | :---: | :---: |
|  | Count | Percent | Number | Rate |
| Ethnicity |  |  |  |  |
| Asian / Pacific Islander | 2 | 3.3\% | 2 | 100.0\% |
| Black or African American | -- | -- | - | -- |
| Hispanic | 30 | 50.0\% | 21 | 70.0\% |
| Native American | 1 | 1.7\% | 0 | 0.0\% |
| Two or More Ethnicities | 3 | 5.0\% | 1 | 33.3\% |
| White | 23 | 38.3\% | 17 | 73.9\% |
| Unreported or Not Available | 1 | 1.7\% | 1 | 100.0\% |
| Totals | 60 | 100.0\% | 42 | 70.0\% |
| Gender |  |  |  |  |
| Female | 41 | 68.3\% | 28 | 68.3\% |
| Male | 18 | 30.0\% | 14 | 77.8\% |
| Unreported or Not Available | 1 | 1.7\% | 0 | 0.0\% |
| Totals | 60 | 100.0\% | 42 | 70.0\% |

- Ethnicity: Hispanic students accounted for the greatest percentage of tutored students: 50\%.
- Gender: The majority of tutored students were female: 68\%.

## - FINAL GRADES

To obtain a final grade for a course in which a student was tutored, the Student ID (900 Number) and the Course ID are required. The SARS "Reason Code" is the data element in which the Course ID can be entered. Thirty-four students had only AA/RW or AABSKSKL "Reason Codes", so there was no way to determine in which course/s they received tutoring. Tutoring Records which were not matched to grade records are related to courses which students dropped during the first weeks of the term.

| Category | Number | Percent |
| :--- | ---: | ---: |
| A. Students with only AA/RW or AABSKSKL "Reason Codes" | $\mathbf{0}$ | $\mathbf{0 \%}$ |
| B. Students with one or more Discipline (or Course) "Reason Codes" | $\mathbf{7 9}$ | $\mathbf{1 0 0 \%}$ |
| C. Students who Received Tutoring at the Math Center | $\mathbf{7 9}$ | $\mathbf{1 0 0 \%}$ |
| D. Tutoring related to a Discipline (or Course) "Reason Code" | $\mathbf{8 8}$ | $\mathbf{1 0 0 \%}$ |
| E. Tutoring Records which were not matched to a Banner Grade Record | $\mathbf{2 8}$ | $\mathbf{3 2 \%}$ |
| F. Tutoring Records which were matched to a Banner Grade Record | 60 | $68 \%$ |

Note: Because several students received tutoring in more than one course, the number in Row $\mathbf{D}(\mathbf{8 8})$ is greater than the number or students who received tutoring (Row C, 79).

This table compares the course success rates of tutored students to those of non-tutored students. The non-tutored students were enrolled in the same course sections as the tutored students.

The overall difference in the success rates of tutored students and non-tutored students is $\mathbf{2 4 . 4}$ points, or 54\%.
