# Ventura College <br> Office of Research and Evaluation <br> FALL 2011 - ACCELERATED BASIC SKILLS PROGRAM 

## - FINAL REPORT

## - INTRODUCTION

The Fall 2011 Accelerated Basic Skills Program offered fast-paced instruction in special sections of basic skills English and Mathematics courses. The Program's objectives are:
(1) To enable students to successfully complete two basic-skills courses - in either the English or the Mathematics discipline - within one semester, thus allowing them to progress to collegelevel English or Mathematics courses in the succeeding semester
(2) To increase the persistence (semester-to-semester enrollment) and course progress rates of students who enter Ventura College requiring basic skills instruction in English or Mathematics.

## - English Component - Instructor: Eric Martinsen

During the first half of the semester, students in the English Component were enrolled in ENGL V03 (CRN 70409); in the second half of the term, the students were enrolled in ENGL V02 (CRN 70548).

## - Mathematics Component - Instructor: Lisa Anderson

During the first half of the term, students in the Mathematics Component were enrolled in MATH V01 (CRN 71580); in the second half of the term, the students were enrolled in MATH V03 (CRN 72235).

## - SUMMARY

## - English Component

- Course Success Rates

ENGL V03:
Accelerated class: $100 \%$ [(27 $\div 27) \times 100$ ]
All other sections: $\quad 82 \%$ [ $(264 \div 321) \times 100$ ]
Difference: $\quad 18$ percentage points

## ENGL V02:

Accelerated class: $93 \%$ [(25 $\div 27) \times 100]$
All other sections: $\quad 72 \%[(498 \div 692) \times 100]$
Difference: 21 percentage points

## - Progress Rate

Progress for students in the English Component of the Accelerated Program is defined as the successful completion of ENGL V03 and ENGL V02.

Progress Rate: $93 \%$ [ $(25 \div 27) \times 100]$

## - Continuation Rate

Continuation, in this context, is defined as a student's successful completion of ENGL V02 in fall 2011 and his/her enrollment in ENGL V01A in spring 2012.

Accelerated ENGL V02 class: $68 \%$ [(17 $\div 25) \times 100]$

Progress for students in the Mathematics Component of the Accelerated Program is defined as

Information Sessions were conducted for students who were interested in learning about the Mathematics Component of the Accelerated Basic Skills Program. Students who attended an Information Session had a significantly higher Progress Rate than those who enrolled in the

The chi square of 7.65 exceeds the tabled value of 3.84 and is, therefore, significant at the .05 level.

- Progress Rate of students attending an Information Session is significantly higher than for students who did not attend an Information Session.
- Phi Correlation Coefficient

Phi $=\sqrt{\text { Chi Square } \div N}=\sqrt{7.65 \div 44}=\sqrt{0.173863636}=0.4169 \approx . \underline{42}$

- A . 42 correlation coefficient shows a moderate relationship between course progress and attendance at an Information Session.
