## A. FTES Enrollments

The FTES (Full-Time Equivalent Student) data presented on this page reflect FTES for which the VCCCD received apportionment funding from the State of California. Between 2000-2001 and 2006-2007, FTES generated by Ventura College was in the 9,000 range. In academic year 2007-2008, VC exceeded 10,000 FTES and became a medium-size college. In AY 2011-2012, the college plans to serve 10,047 FTES and in AY 2012-2013 to serve 9,850 FTES (exceeding the medium-size college minimum of 9,380 FTES).

## III. ANNUAL ENROLLMENT TRENDS

## B-1. Overall Headcount

In future years, the college expects headcount enrollments to decrease due to fewer course offerings and the probability of additional cuts in state funding. As mentioned in the previous sub-section (A. FTES Enrollments), the college is reducing its FTES workload from 10,928 in 2009-2010 to 9,850 in 2012-2013. Headcount enrollments will likely decrease at a faster rate than FTES since a reduction in course offerings will disproportionately affect the occasional student (3 or less units per term) than it will the full-time (12 units) or $3 / 4$-time ( 9 units) student. It is expected that high-demand courses that are transfer-level, degreeapplicable, or certificate-applicable will continued to be offered on a regularly scheduled basis.

Students who meet the full-term reporting criteria in at least one of the terms during an academic year are included in this query. The full-term reporting criterion is defined as Student-Headcount-Status (STD7) of:
A (Credit student enrolled in Weekly / Daily Census section),
B (Credit student enrolled in Positive Attendance section with 8 or more hours or 0.5 or more units earned),
C (Credit student enrolled in Independent Study section with 0.5 or more units earned), or
F (Noncredit student enrolled in Positive Attendance section with 8 or more hours).

## III. ANNUAL ENROLLMENT TRENDS

## B-2. Gender

Over the past decade, the proportion of female students at Ventura College has remained steady at 56\%, while the male proportion has been at or close to $43 \%$ (the remaining $1 \%$ is composed students who did not report their gender). In 2009-2010, the statewide proportions were 54\% female, $45 \%$ male, and $1 \%$ unreported. The percentage of female students at VC in 2009-2010 was slightly higher (2 points) than the statewide average and the percentage of male students was 2 points lower than their statewide average.

## B-3. Race/Ethnicity - Data Tables

In 2008-2009, the number of Hispanic/Latino students at Ventura College surpassed the number of White students, resulting in Hispanics becoming the largest racial/ethnic group at the college. In 2009-2010, the proportion of Hispanic students at VC was $\mathbf{4 5 . 2 \%}$ compared to $39.8 \%$ for White students. As of the 2010 U.S. Census, the percentage of Hispanics residing in the college's service area was $42.7 \%$, which is 2.5 percentage points lower than Hispanic student enrollment at Ventura College in 2009-2010.
Population percentages for Ventura College's service area and for all of Ventura County are presented in the data table below. The Census Bureau reports population data by two characteristics: Ethnicity (Hispanic/Latino or Non-Hispanic/Non-Latino) and Race (the percentages by city or area total 100.0\%).

Note: In fall 2009, new race and ethnicity data collection procedures were mandated by the US Department of Education. The new procedures include the option of selecting multiple ethnicities, which are reported in the table above as $2 /$ More Races. Only new students to the VCCCD (since fall 2009) have had the opportunity to select multiple races. Continuing students, however, have the ability to update their race/ethnicity via the Student Portal.

## III. ANNUAL ENROLLMENT TRENDS

B-3. Race/Ethnicity - Chart

## III. ANNUAL ENROLLMENT TRENDS

## B-4. Hispanic Students by Gender

Over the last decade, the distribution of Hispanic students by gender has been similar to the gender distribution for all students at Ventura College. Generally, the percentage of Hispanic students who were female was one percentage point higher than it was for the entire student body, and the percentage Hispanic students who were male was one percentage point lower than it was for the entire student body.

In 2009-2010, 57.3\% of Hispanic students were females compared to $\mathbf{5 6 . 0} \%$ for the entire student body. The percentage of Hispanic students that were males was $\mathbf{4 2 . 1} \%$ versus $\mathbf{4 3 . 2} \%$ for all students.

[^2]III. ANNUAL ENROLLMENT TRENDS

## B-5. Age Group - Data Table

Over the past decade at VC, the percentage distribution of students by Age Group has shown a marked increase in the younger student groups and a decrease in older student groups (see the data table on the bottom of this page and the chart on next the page). In the "19 or younger" group, there is a 7 percentage point increase from 2000-2001 to 2009-2010 and in the " 20 to 24 " group, the increase is 4 percentage points. During this ten-year period, all of the 30 -and-over age groups experienced declines in their relative proportions of the Ventura College student body.

In 2009-2010 at VC, the percentage of Hispanics students in the "19 or younger" age group was $40.1 \%$ compared to $33.9 \%$ for All Other Students (see the table below). Almost 70\% of Hispanic students in 2009-2010 were less than 25 years of age versus $\mathbf{6 2 \%}$ for All Other students.

| 2009-2010-Hispanic Students Compared to All Other Students |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Age Group (In Years) | Hispanic Students |  | All Other Students |  | Difference in Percentages |  |
|  | Number | Percentage | Number | Percentage |  |  |
| 19 or younger | 4,096 | 40.1\% | 4,200 | 33.9\% | 6.2 | \% points |
| 20 to 24 | 3,020 | 29.6\% | 3,512 | 28.3\% | 1.3 | \% points |
| 25 to 29 | 1,168 | 11.4\% | 1,334 | 10.8\% | 0.6 | \% points |
| 30 to 39 | 1,068 | 10.5\% | 1,236 | 10.0\% | 0.5 | \% points |
| 40 to 49 | 567 | 5.5\% | 1,029 | 8.3\% | -2.8 | \% points |
| 50 or older | 292 | 2.9\% | 1,075 | 8.7\% | -5.8 | \% points |
| Unreported | 0 | ---\% | 5 | 0.0\% | --- |  |
| Totals | 10,211 | 100.0\% | 12,391 | 100.0\% | 0.0 |  |

It is expected that the trend toward increased enrollments of younger students will continue, primarily due to the college's focus on its core mission: providing transfer, degree and certificate programs.

## III. ANNUAL ENROLLMENT TRENDS

## B-5. Age Group - Chart

Over the last decade, the number and percentage of younger students at Ventura College has continued to grow. During the same period, the number and percentage of older students at the college has been declining.

The chart below provides a visual depiction of the trends for students in six age groups.

## III. ANNUAL ENROLLMENT TRENDS

## C-1. Overall Course Enrollments

Credit enrollments at VC have increased over the last four (4) academic years, from 70,534 in 2006-2007 to 92,046 in 2009-2010. Over the ten (10) year period, retention rates have fluctuated between $81 \%$ and $84 \%$. Success rates during this ten (10) year period have ranged between $64 \%$ and $71 \%$. For the latest academic year (2009-2010), the retention rate was $82.7 \%$ and the success rate was $66.6 \%$.

## Retention and Success Rates

The denominator in retention and success rate computations is the number of course enrollments with grade notations of A, B, C, D, F, CR, NC, I*, P, NP, DR, and W.
Retention is defined as a grade notation of $A, B, C, D, F, C R, N C, I^{*}, P$, or NP.
Success is defined as a grade notation of $A, B, C, C R$, or $P$.
Enrollments data relate to credit courses for which State Apportionment was claimed (i.e., XB01 was not equal to "O.")

[^4]III. ANNUAL ENROLLMENT TRENDS

## C-2. Enrollments by Course Modality

During the decade, enrollments in distance education (DE) classes at VC have grown from 94 in 2000-2001 to 11,568 in 2009-2010. Accompanying these increases in distance education enrollments has been an expansion of the college's course and section offerings in DE. In 2009-2010, VC offered 204 DE sections. As DE offerings have increased, enrollment percentages in traditional courses have declined. In 2009-2010, enrollments in traditional classes accounted for $\mathbf{8 7 . 4 \%}$ of all course enrollments versus 99.9\% in 2000-2001.

[^5]III. ANNUAL ENROLLMENT TRENDS

## C-3. Outcomes by Course Modality

Since 2005-2006, success rates in DE courses at VC are about 13.5 percentage points lower than in all other courses (i.e., courses delivered in a traditional modality). Through a new (2010) Title V Cooperative Grant, Ventura College is creating initiatives to address the lower success rates in DE courses. A Summer Institute (as part of the grant's Professional Development component) was conducted to provide instructors with the latest strategies and pedagogies for increasing success rates in DE classes. Additionally, a distance education orientation has been created to assist new DE students familiarize themselves with the computer technology, software, and procedures associated with classes offered via a distance education modality.
Each year, the Office of Research and Evaluation prepares a detailed report on student outcomes in all DE classes. The report presents success and retention rates in each DE section offered in the fall and spring terms. Success and retention rates in DE courses are compared to the success and retention rates in the respective traditional courses. These reports are available on the Institutional Effectiveness webpage.
