Intersegmental General Education Transfer Curriculum 2019–2020

CAVEAT—These courses and requirements are subject to change. Students should consult with a Ventura College counselor and/or visit appropriate websites to receive the most current transfer information.

Completion of the Intersegmental General Education Transfer Curriculum (IGETC) pattern is not generally a requirement for transfer to a California State University (CSU) or a University of California (UC) campus, nor is it the only way to fulfill the lower division general education (GE) requirements of the CSU or the UC prior to transfer. It is **not** advisable for all transfer students to follow the IGETC pattern. Some students may be better served by taking courses that fulfill the CSU General Education-Breadth (CSU GE-B) requirements or those of the UC campus or college to which they plan to transfer. Students pursuing majors that require extensive lower division major preparation (“high-unit majors”) may not find the IGETC option to be advantageous. Students should also be aware that selected schools and colleges at most undergraduate campuses of the UC have requirements that render the use of IGETC either inappropriate or not permitted (e.g., the College or School of Engineering). The IGETC pattern will probably be most useful for students who want to keep their options open before making a final decision about transferring to a particular CSU or UC campus. For current information, consult the UC Answers for Transfers Booklet.

ADMISSION—Most campuses of CSU and UC only rarely accept transfer applicants at the freshman or sophomore levels. Upper division or advanced standing admission criteria are based on three components:

1) **Units**—a minimum number of transferable semester units (60 to 70 transferable unit for CSU and UC);

2) **Scholarship**—a minimum cumulative GPA in all transferable coursework (2.0 for CSU; 2.4 for UC; higher for non-California residents); and

3) **Subject area requirements**—course pattern (a–g) requirements and the ways in which students satisfy these requirements differ between the CSU and the UC. These admission criteria specify only minimum standards. The CSU and/or UC may apply rigorous standards as enrollment demand changes.

All potential transfer students are expected to read the CSU and UC publications for transfers available online or in the Ventura College Counseling Office and University Transfer Center.

Applicants **must complete** both the necessary lower division **mathematics and English composition requirements with grades of “C” or better** for most campuses by the end of the spring semester prior to transfer in the fall and all Groups of Areas 1 and Area 2 for IGETC. Some campuses require the completion of the English and mathematics requirements by the end of the fall semester prior to transfer in the following fall. Also, some campuses require that the 60-transferable-unit minimum, the subject area requirements, and major preparation courses with grades of “C” or better be completed by the end of the spring semester prior to transfer in the fall. Completion of the IGETC pattern satisfies lower division GE requirements at all CSUs and most UCs. It does not guarantee eligibility for admission to the CSU or UC system, or to a specific campus or program. Students who are fully certified for IGETC prior to transferring to UC or CSU will satisfy the subject area or course pattern requirements for admission; they must also satisfy the units and scholarship requirements.

USE OF SUMMER COURSEWORK FOR FALL ADMISSION—Only CSU Fullerton considers summer coursework for fall admission, excluding the Golden Four courses (Oral Communication, Written Communication, Critical Thinking, and Mathematics/Quantitative Reasoning), and do not accept ADT degrees awarded in Summer for fall admission. CSU Long Beach will consider summer coursework only if a student is completing an Associate Degree for Transfer with a summer graduation date. See calstate.edu/sas/casper/upper-div/admission-registration-and-transcript-receipt.shtml for the latest on restrictions.

CERTIFICATION—All CSU and most UC campuses will accept full certification of the IGETC as meeting all of the lower division GE requirements for the baccalaureate degree. Generally, the last community college a student attends before transferring will determine certification of the IGETC. In addition to the course requirements for each subject area, full certification for the CSU must include completion of the Oral Communication requirement. For the UC, Oral Communication is not required, but full certification must include satisfaction of the Language Other Than English (LOTE) requirement. Consult with a VC counselor to determine the options for satisfaction of the LOTE requirement. Partial certification of IGETC is permitted. A maximum of two IGETC courses may be completed after transfer. **NOTE: Partial certification that acknowledges a deficiency in Areas 1 and/or Area 2 may also indicate a student does not meet minimum transfer requirements.** Students should make an appointment with a counselor prior to transfer to apply for IGETC certification or to petition for partial certification.

CERTIFIED COURSES—Coursework completed at regionally accredited institutions to include California community colleges (CCCs), along with those colleges and universities, which are not CCCs, including out-of-state and independent colleges, may be included among the courses to certify student completion of IGETC if such coursework is comparable to courses on any CCC approved course list. Each CCC course must have been IGETC approved by the time it was taken. In addition, credit awarded for Advanced Placement (AP) exams may be used to meet IGETC requirements. Students should consult with a VC counselor to determine the applicability of coursework and AP exam scores to satisfy the IGETC subject area requirements.

SCHOLARSHIP—Courses used for IGETC certification must be completed with a minimum grade of “C-” on a 4.0 grade scale. (“C-” is acceptable for the CSU GE Breadth Certification only). A “Pass” (P) is acceptable, if it is equivalent to a grade of “C” or higher at the institution where the course was taken. The UC system allows a maximum of 14 semester units graded Pass/No Pass. Individual CSU campuses also

impose unit limitations for Pass/No Pass courses.

COURSE RESTRICTIONS—A single course may count only once; it cannot be used to fulfill GE requirements in two areas simultaneously. The only exception is that the more advanced coursework used to satisfy the UC requirement in Language Other Than English may also be used to satisfy the Humanities requirement. Foreign coursework cannot be applied to IGETC (except Area 6) unless the foreign institution has U.S. regional accreditation.

TRANSFER LIMITATIONS—All transfer limitations applying to courses taken at VC also apply to these general education requirements. Consult a VC counselor concerning these limitations.

TRANSFER COURSES—The approved IGETC course listing designates those courses that may be used to meet university-wide general education requirements (see Certification). The GE courses are not a complete list of all courses that transfer to CSU and UC. Transferability information of courses is found in the Ventura College catalog, the Schedule of Classes (in the online schedule, click the CRN number), the Counseling Office, the University Transfer Center, or visit the ASSIST website: assist.org.

ADDITIONAL CSU-GE REQUIREMENTS—Students, who are fully certified under IGETC pattern and transfer to CSU campuses, will be required to complete a minimum of nine units of upper division GE course work.

U.S. HISTORY, CONSTITUTION, AND AMERICAN IDEALS REQUIREMENTS—All CSU campuses require students to complete college-level coursework in U.S. History, American Government, and California Government in addition to GE requirements for graduation. Courses completed to satisfy this requirement may be used to satisfy GE requirements for IGETC pattern. UC campuses have similar requirements in American History and Institutions (AH&I). However, the AH&I requirements may be satisfied for most UC campuses (except UC Santa Barbara) by completing the subject area requirement in high school. Consult a counselor for further information about this requirement.

MAJOR COURSES—Most campuses require a grade of “C” or better for each course required in preparation for a student’s major; most do not allow a “Pass” (P) for major courses. Also, The UC will allow IGETC courses to count toward major requirements. Some CSU campuses restrict double counting. To verify which campuses impose restrictions, visit calstate.edu/sas/casper/upper-div/transfer-certification-and-double-counting.shtml.

MAJOR PREPARATION—Satisfaction of lower division courses required for selected majors is generally required in those majors, which are oversubscribed or impacted. The UC and CSU generally prefer students to complete prerequisite major courses before completing general education courses. Of course, all requirements for admission (minimum units, GPA, and subject area requirements) must be completed prior to transfer.

SEQUENTIAL COURSES—Most institutions recommend that students complete sequential courses at the college where the sequence was started. This is especially recommended for a sequence of two or more courses that require the preceding course(s) as a prerequisite to advancement.

OTHER COLLEGES AND UNIVERSITIES—Students who plan to attend a private or out-of-state school should consult a counselor and the catalog of the particular school to determine the coursework needed to meet GE requirements at that institution. While most of the courses on the approved IGETC list transfer to other institutions, they do not necessarily satisfy the GE requirements.

TRANSCRIPTS—Students must make a written request of the Admission and Records Office to obtain and/or forward their transcripts. Ventura College sends official transcripts of work completed at Ventura College, Moorpark College, and Oxnard College. Students must request transcripts of work completed at any other colleges (outside of the Ventura County Community College District) to be sent to the transfer institution. Your application for certification is not a request for a transcript.

ASSOCIATE DEGREE—Although it is not necessary for a student to complete an associate degree in order to transfer to a four-year school, many of the courses taken to satisfy associate degree requirements are transferable and, in many cases, may be used to meet transfer GE requirements.

TRANSFER ASSISTANCE—The Ventura College Counselors assist students who encounter problems during or after transfer. Past, present, and future VC students should feel free to contact the Counseling Office or the University Transfer Center at any time.

MORE INFORMATION—Students having any questions should check with a VC counselor. Visit admission.universityofcalifornia.edu/transfer, csumentor.edu, and/or assist.org for additional information.

ASSIST—ASSIST (Articulation System Stimulating Interinstitutional Student Transfer) is a computerized transfer information system that can be accessed over the World Wide Web. It displays reports of how course credits earned at a higher education institution may be applied when transferred to another. ASSIST is the official repository of articulation for California’s public colleges and universities, and therefore provides the most accurate and up-to-date information available about student transfer in California. ASSIST is available at assist.org.
