The screenshot shows a web browser displaying the Ventura College Equity Dashboard. The page features a navigation menu with links for Home, College Information, Apply and Enroll, Departments, Services for Students, Online Services, Accreditation, and Quick Links. A sidebar on the left lists various reports and dashboards, with 'Equity Dashboard' highlighted. The main content area is titled 'Equity Dashboard' and includes an introductory paragraph about the college's equity policy. Below this, there are two sections: 'Metric 1: Access' with a map of the Ventura College Service Area and the question 'Do our student demographics reflect those of our community?', and 'Metric 2: Course Completion (Course Success Rate)' with a bar chart and the question 'Do all student groups pass their courses at same rate?'. The bar chart shows success rates for various student groups, with 'Female' and 'Male' highlighted in orange.

### Equity Dashboard

In 1992, the California Community Colleges Board of Governors adopted a student equity policy. The goal of this policy was to improve access to and completion of higher education among student groups who have been historically underrepresented in higher education. In 2014, the State of California began to provide formal funding to colleges for the specific purpose of closing gaps in access and success among underrepresented groups. This funding stipulates that each college must develop an annual student equity plan, in which the college analyzes data on five key equity metrics, identifies gaps between student groups, and then develops interventions to close those gaps. For more information about the Student Equity Plan, visit the VC Student Equity Committee website and the [CA Chancellor's Office Student Equity website](#).

Click the dashboards below to view data on the five key equity metrics for Ventura College.
