**NOTE:**

Effective January 1, 2009, a new Education Code provision went into effect that authorizes California community colleges to use student EAP test results for placement. Section 99301 states,

“ (a) Notwithstanding subdivision (a) of Section 78213, the individual results of the California Standards Test (CST) and the augmented CST, as referenced in Section 60641, in addition to any other purposes may be used by community college districts to provide Diagnostic advice placement of, to, or for the prospective community college students participating in the EAP.

(b) (1) As authorized pursuant to subparagraph (B) of paragraph (3) of subdivision (a) of Section 60641, the individual results of the CST and

the augmented CST, as referenced in Section 60641, shall be provided to the office of the Chancellor of the California Community Colleges.”  
 In a manner similar to CSU, CCC's can accept EAP test results for students demonstrating proficiency on this test in English and/or math as a waiver to the college's assessment process and to place them into college-level courses.
