

Research Shows You Can Do It!

English 1A: A Transfer-level Course with Built-In Academic Support

Thanks to AB705, you have the right to enroll directly in **English 1A English Composition**, where you have the **best chance** to complete the writing requirement. Research shows starting even one-level-below reduces your odds. English 1A is 4 units, but it combines 3.5 classroom hours and 2 lab hours to give you extra academic support and more time with your English instructor.

Students with a **HS GPA below 2.6** are encouraged to **enroll in fully face-to-face sections** because more academic support such as in-class tutoring is available during class time and easy to access. All students are welcome to visit our well-trained writing tutors in the Learning Resource Center's Tutoring Center.

Integrated Tutoring in the BEACH

Your writing tutor/peer coach attends the BEACH computer lab portion of every fully face-to-face English 1A class to provide you with additional support. At the end of class, the tutor stays at the BEACH for an extra 30 minutes for one-on-one and group tutoring.

Multilingual/ESL Support

In fall 2019 we are offering two new Eng-M writing courses for ESL and multilingual students who may need additional support before enrolling in English V01A.

Improve Your Study Skills: Choose Your Own Support Course

Success in English 1A is as much about your study skills as it is about your writing skills. **If your HS GPA is below 2.6**, we strongly recommend that you also enroll in one of Ventura College's study skills courses such as **Study Skills V03 Expert Learner I** (2 units) or **COUN V01 College Success** (3 units).
