V. POLICY AND PROCESS (Information or Discussion/Action)

A. Proposal to Identify Course Objectives with Course/Lab Content (Discussion/Action; see attachment – M. Callahan)

1. Proposal to change In-Class Assignments

This is regarding objectives, lecture and lab content. The idea is that for each of the major topics (higher order items – A., B., C., etc.) in your lab/lecture content, for the course author to indicate which objective is related to which item in parenthesis next to each item. This is not a request for retroactive work. If you're revising a course or creating a new course, please update this section. Michael would like this process to start from here on out.

2. Proposal to add percentage of time for each major topic in content

Identify the estimated percentage of time designated to the specific topics in the lecture and lab content. Hoping to add in a field for this information in whatever new curriculum management system we adopt.

3. Proposal to change the COR form to be implemented in the new curriculum management system

Replace the In-Class assignments matrix with a text box in the new curriculum management system.

N. Fredrickson moved to approve proposal #1 (Proposal to Change In-Class Assignments) starting now.

Motion by: N. Fredrickson

Seconded by: C. Branciforte

Discussion: "now"? – we need a bridge/give people a warning.

How about "...it was approved at this meeting, and give them a period of time"

M. Callahan will ask when courses come through for tech review

Final resolution: Proposal was approved

Yes: M. Bowen, T. Brabander, C. Branciforte, M. Callahan, D. Clark, N. Cole, N. Fredrickson, J. Guelcher, M. Rivera, K. Wellman, M. Werness-Rude, L. Wintermeyer

No/Abstain: None

M. Callahan moved to approve Proposal #2 (Add Percentage of Time for Each Major Topic in Content) and #3 (Change the COR Form to be Implemented in the New Curriculum Management System) and postpone implementation until we are planning/finalizing the new curriculum management system

Motion by: M. Callahan

Seconded by: T. Brabander

Discussion: Thao: getting requests from 4 year school faculty to send percentage information in articulation.

If we want to postpone until the next system, she will have to continue to ask for syllabus information to get this information.

Syllabus will be sent to the requesting faculty with percentage information.

Some departments will be concerned with instructional freedom in listing the percentage on the COR. They may be more comfortable with just leaving it on the syllabus and sending it upon request as it is done now.

Can this idea be considered with just the Science classes instead of the Humanities?

Final resolution: Motion vote postponed until later meetings until departments can have discussions

No Vote Taken

B. Revised: BUS V04, NS V30, NS V31

C. Revised (Spring 2019): NS V40, NS V41

Debbie Newcomb was present to speak on the rationale for these courses:

A problem was detected – that some new students/re-entry students do not have computer skills. Adult schools are impacted, and our current course is not for the novice.

The Business Department would like to offer these courses simultaneously with the credit course counterparts and students can repeat them until they feel they had the skills. Tutoring center does not offer assistance in this area either.

C. Branciforte – Sharon Oxford with DE couldn't be at the meeting, but wanted to ask why N164 didn't have all of the modalities. D. Newcomb: The department felt that was the most appropriate for an entry level class. The DE modality choice was intentional, not a mistake.

Notes in regards to NS courses: Courses are being updated to meet accreditation requirements. NS V40 and NS V41 Spring 2018 approval is due to their courses are being on cohorts. Fall version and Spring version will be listed in the catalog separately (as it was this past year)
