MAKING A CUSTOMIZED WIDGET FOR YOUR COURSE HOMEPAGE

Under “Edit Course,” click on “Widgets.”
Click “Create Widget.”
Making a Customized Widget for Your Course Homepage Continued

Enter widget name and then click “Content.”
You can upload pre-made banners and photos by clicking here.

Add links by clicking here.
*To link directly to your syllabus, upload the document at Docs.Google.Com. This will create a URL containing the document.

Create the link by scrolling down and clicking on "Url."
Customize the font, alignment and color of the link using the word tools.

Click “Save and Close.” You can now add the customized widget to your course homepage.
