Re: Funds available for fiscal year 2017-18 program review requests

I am pleased to share with you the funds available to address fiscal year 2017-18 (FY18) program review requests.

- Equipment requests: \$234,314 funding items 1 through 6
- Technology requests: \$318,336 funding items 0 through 1 (items ranked with a 0 are annual refresh costs identified in the Technology Master Plan)
- Facility requests: \$577,597 fully funding items 0, 2, 3, 4, 5 and partially funding item 1 (items ranked with a 0 are annual refresh costs identified in the Facilities Master Plan)

For the specifics of the items, please refer to the Program Review prioritized list for each category on the website at <https://www.venturacollege.edu/college-information/program-review/program-review-2017-2018>. Requisitions for these items may now be submitted. For facility and technology requests, please work with Grant Jones or Jay Moore, as appropriate.

The amounts identified in the Program Review process are estimates and actual costs will vary. As actual costs are submitted, available funds will be re-assessed and additional items may be funded. If you have any questions on moving forward with your purchases, please do not hesitate to contact Jeanine Day, College Fiscal Supervisor, for assistance.
