The Chancellor will develop a multiple-year District Strategic Master Plan ("Plan") prepared with input from Consultation Council. The Plan will provide general direction for subsequent Board planning activities. During the Board's annual June strategic planning meeting, the Board, in conjunction with District constituents, will establish, modify, or eliminate strategic planning goals and objectives based upon demographic, economic, technological, legislative, and other changes impacting the District. Evidence of sustainable, continuous quality improvement in achieving goals and objectives will be presented and assessed during the June strategic planning session.

College educational master plans will align with Board strategic planning goals and objectives. Progress in meeting District goals and objectives will be assessed annually in June as part of the District's Strategic Master Plan process. Evidence and outcomes presented during master planning activities will be used to assess sustainable, continuous quality improvement practiced within District programs and services. Efficiency of resource allocation in meeting established planning goals and objectives will be assessed annually.
