---

[1] Five minutes is allotted to any member of the public who wishes to address the curriculum committee, with a maximum of twenty minutes per topic aggregated for all speakers, unless extended by vote of the committee. At the request of any speaker proposing to address a specific agenda item, the committee may also vote to permit that speaker's comments to be deferred until the meeting progresses to that topic.

This discussion was postponed pending the arrival of A. Kolesnik.

After the arrival of A. Kolesnik, M. Bowen called for a discussion regarding AP 5050 and AP 5070 and how it affects the curriculum.

Discussion: *AP 5050—A. Kolesnik explained that one of the issues regarding this AP is that the 3SP requirements may be hindering enrollment growth. Some students may be deterred by continuing through with school after having to through the orientation and assessment process, and the Board of Trustees is planning creating an exclusion for non-first time students. Discussion ensued regarding AP 5050 and its impact on students.*
AP 5070—A. Kolesnik presented a concern regarding attendance policies from this AP and how it could affect our Police Academy courses. K. Hoffmans assured that all enrollment prerequisites for the AS/COA in Basic Law Enforcement Academy would be clearly laid out in the catalog regarding this program, and there should be no problems with the program in regards to this AP.

Seconded by: L. Wintermeyer
Discussion: *There was varied discussion regarding the pending reactivations of
                    these noncredit courses. There was a general concern regarding the
                    number of hours assigned to the courses. The committee felt it would
                    be better to postpone the discussion pending the arrival of Karen
                    Harrison to discuss these courses.*
Final resolution: Motion Failed

*A new motion was introduced to postpone these curricular proposals until K. Harrison
arrived at the meeting or until the next meeting as necessary.*
Motion by: R. Petitfils
Seconded by: L. Wintermeyer.
Discussion: *Postpone until Karen comes or until next meeting.*
Final resolution: Approved.
Yes: M. Bowen, C. Branciforte, N. Fredrickson, J. Garner, J. Guelcher, D.
                    Newcomb, R. Petitfils, L. Wintermeyer

*After K. Harrison arrived, M. Bowen presented the reactivated courses for second
reading once again.*
Motion by: R. Petitfils
Seconded by: N. Fredrickson.
Discussion: *K. Hoffmans expressed concern over the high number of hours for
                    these classes and mentioned that the high number of hours could be
                    a barrier for students interested in taking these classes. K. Harrison
                    impressed that the goal of these courses is to completely immerse
                    non-English speaking students in an English speaking environment,
                    and that it would be a rigorous course. K. Hoffmans explained that
                    amongst other colleges, 80 hours seems to be the standard number
                    of semester hours. K. Harrison agreed that she could adjust the
                    curriculum to fit this number of hours.*
                    *The motion was amended to approve the courses under the condition
                    that the hours were changed from 175 to 80 semester hours.*
Final resolution: Approved
Yes: M. Bowen, C. Branciforte, N. Fredrickson, J. Garner, J. Guelcher, A.
                    Kolesnik, D. Newcomb, R. Petitfils, L. Wintermeyer

B. Revised Program: AS/COA in Basic Law Enforcement Academy

M. Bowen presented the revised program for second reading.
Motion by: N. Fredrickson
Seconded by: D. Newcomb

Discussion: *The program was presented replacing POSC V89A (the experimental course) with its permanent replacement. The committee agreed that it is not normal practice to approve the program when a component course has not yet been approved. The motion was amended to add in a first and second reading approval of POSC V01A. No changes have been made to the course other than the addition of two other enrollment limitations as agreed upon at the previous Curriculum Committee meeting.*

Final resolution: Approved as amended.

Yes: M. Bowen, C. Branciforte, N. Fredrickson, J. Garner, J. Guelcher, D. Newcomb, R. Petitfils, L. Wintermeyer

GLOBAL AND INTERNATIONAL STUDIES

Problems of security, development, ethnic conflict, human rights, ***migration***, health, and the environment are increasingly confronted at a global rather than a national level. Political events, economic, and military events throughout the world impact our lives with the rapidness of our high speed modern communication. As the global exchange of awareness increases there is an equally increasing demand for International Studies graduates. This program offers a diverse and interdisciplinary curriculum allowing students to choose one of the following areas of emphasis: African Studies, Asian Studies, Business and Economics, Communication/Literature/Arts, European/Western World, Global Environment, International Politics and Diplomacy, and Latin American/American Studies. Students graduating with a Global and International Studies Associate in Arts degree are seeing an increasing demand. Universities have been increasing their offerings of International Studies majors to meet the growing demand for students that are educated with a global perspective. This major prepares students for transferring to International Studies programs at four-year colleges and universities. ***Since a great portion of hi-tech, pharmaceutical and other U.S. products is exported, a double major with one in Global Studies substantially increases employment opportunities.*** For those students not choosing to major in International Studies, this program offers a strong foundation in basic global knowledge which today is a prerequisite for conducting business in most successful enterprises, and helps those students prepare for related occupational and vocational opportunities which are rapidly growing in this area.

The Graphic Design FDRG is currently vetting a draft of the TMC, along with two descriptors. Please encourage your faculty to provide feedback on the TMC and descriptors by February 26, 2016. Click here to access the descriptor review area, and here to access the TMC survey.

Mathematics
The Math faculty discipline review group (FDRG) convened in mid-January to discuss the recent resolution passed by the ASCCC to *"…convene the Math Faculty Discipline Review Group (FDRG) to consider alternative pre-requisites for C-ID MATH 110 Introduction to Statistics.*" This resolution was passed in response to recent decisions by the CSU and UC systems to encourage community colleges to submit statistics courses with alternative pre-requisites for general education consideration. As a result of the meeting, the FDRG decided to open the descriptor for C-ID MATH110 for vetting ahead of the scheduled 5-year review. In addition, the FDRG is proposing to draft a new MATH 111 Introduction to Statistics descriptor that would allow the use of the alternative pre-requisites and would parallel the C-ID MATH 110 descriptor. Please encourage your faculty to participate in the vetting of the MATH 110 descriptor by March 2, 2016 by visiting the C-ID descriptor review area.

ANNOUNCEMENTS:

Discipline Input Group (DIG) Meeting – Ontario, CA
C-ID is hosting a discipline input group (DIG) meeting on February 26, 2016 at the Ontario Airport Hotel and Conference Center. The focus is on CTE areas to determine the possibility of creating descriptors and model curriculum. To find out more information and to register for the event, visit the c-id.net website and click on "DIG Meetings". Please notify your faculty who teach in the disciplines being convened to register for the event, as this is their opportunity to provide input and feedback on the creation of model curriculum. We are also looking for 4-6 AOs to volunteer for the meeting. Email Krystinne@asccc.org if you are interested in this volunteer opportunity!

CCC Chancellor's Office Templates – Now Available
The templates for the following disciplines are now posted and available on the CCC Chancellor's Office website: Child and Adolescent Development, Global Studies, Public Health Science, and Social Justice Studies. Colleges may now begin to develop and submit degrees for those disciplines.

CCC FDRGs Being Convened
Faculty Discipline Review Groups (FDRG) for CTE disciplines convened this past fall are currently being formed. The FDRGs for the CTE disciplines will look at the development of descriptors and model curriculum for their discipline. Please be on the look out in the near future for vetting of descriptors and model curriculum from the following disciplines:

- Culinary Arts
- Small Business & Entrepreneurship
- Welding Technology
- Office Technology/ Business Information Worker (BIW)
- Fire Technology
- Radiologic Technology
- Health Occupations

Submission of non-transfer courses for CCC-only Descriptors:
C-ID recently announced the availability of descriptors intended for use within the California community colleges, geared towards career technical education (CTE) courses - these descriptors are denoted with the suffix "X". As you know, courses submitted to C-ID are validated against courses in the ASSIST database. This same validation will take place with regard to non-transferable courses submitted to C-ID. While a majority of the courses housed on ASSIST are transferable, ASSIST is committed to supporting the work of C-ID which includes an understanding that community colleges will need to add non-transferable courses to ASSIST in order to facilitate C-ID submissions for descriptors intended for use only within the California community college system. This C-ID/ASSIST partnership further supports the transition of the C-ID course submission process to the ASSIST Next Generation system in 2017.

Non-transferable courses which need to be added to ASSIST outside of a normal curriculum update cycle should be submitted via the ASSIST Curriculum Additions and Changes form (http://www.assist.org/utilities/correction.do). Please note that C-ID receives ASSIST course data twice a month, on the 5th and 20th.

COURSES BY DISCIPLINE

As of February 8, 2016, over 17,545 courses have received determinations (total for approved, conditional, and not approved columns), with 14,588 courses receiving a C-ID designation (an 83% approval rate).
