III. INTRODUCTIONS, AND PUBLIC COMMENTS (Information)¹

A. First Year Experience Task Force Seeks Volunteers – D. Clark, D. Farias, J. Kalfsbeek-Goetz

D. Clark: At last Senate meeting, there was a discussion about First Year Experience. There are a list of courses that qualify for this experience, and faculty are interested in getting their courses on this list. A taskforce needed with some faculty from Curriculum Committee and some from Senate, to come up with a transparent process to decide which courses can be counted towards the First Year Experience program.

J. Kalfsbeek-Goetz: This is an information item right now. Volunteers can come from anywhere – not just faculty involved in Senate or Curriculum.

D. Clark: We would like to have volunteers set by March to begin meetings.

B. DE Addenda for Fall 2021 – J. Kalfsbeek-Goetz

Link to SharePoint spreadsheet: https://vcccdventura-my.sharepoint.com/:x/g/personal/jkgoetz_vcccd_edu/EWsNkGzhqVhDIKC C2PdVOm4Bh9pQq5eRBLXIAr6g- XZLA?e=wbyYBd

Reminder for Department Chairs that we need to know which courses that will be offered in Fall 2021 need DE (Distance Education) addendums.

¹ Five minutes is allotted to any member of the public who wishes to address the curriculum committee, with a maximum of twenty minutes per topic aggregated for all speakers, unless extended by vote of the committee. At the request of any speaker proposing to address a specific agenda item, the committee may also vote to permit that speaker's comments to be deferred until the meeting progresses to that topic.

J. Kalfsbeek-Goetz: Want to remind everyone that we need to go through the regular Curriculum process to add DE addendum. Classes have to have an addendum attached to them in order to be offered in fall 2021. February 11th was the deadline – there is not much on the list so far. Dept. Chairs and Deans need to use the link they were provided in an email to indicate which courses need an addendum for fall. Any that do not have DE will be removed from the fall 2021 and summer 2021 schedule.

M. Callahan – we should expand this to include the summer of 2021.

Please share this information with your areas/divisions.

C. Banner Sync Issue – Testing - M. Bowen, J. Kalfsbeek-Goetz, O. Long

K. Denton: to our knowledge, the issue has been fixed and we can start pushing courses through that have been stuck at the Banner step. Upwards of 10 minutes per course at 500 courses – time consuming workload. Good news is that it seems like it's working, and we are able to have a manual sync to CourseLeaf twice a day to get them pushed through. CourseLeaf is unavailable to the campus 12-1pm each day to help in this process. This will continue for several weeks until backlog is done.

CC Members – please let your departments know about CourseLeaf being down from 12-1pm (give or take some time on either side).

D. Deadlines for AA/AS GE Submissions - M. Bowen

Reminder that we have P&GE coming up on March 2nd at 3pm, during the regular Curriculum Committee meeting spot. Next Curriculum Committee meeting is on March 16th. If you have a course that you'd like to be added, you need to submit paperwork before the meeting to M. Bowen. He'd like to have the items by Feb 25. Please contact him for the link to the paperwork.

E. Public Comments

R. Gamboa: Item was brought up to the Senate that Curriculum Committee should also know about.

It was a resolution to the Senate – creating a workgroup or taskforce/subcommittee to the Curriculum Committee to focus on the GE area F Ethnic Studies requirement. Would like this on the next agenda to move forward.

Recommendation was made to bring this to the P&GE meeting later this month, and then bring it to the larger Curriculum Committee at the next meeting.

As Curriculum Committee Chair, the Curriculum Committee can advise Michael Bowen on how the committee would like to vote/discuss a particular item at Senate meetings.

M. Rivera: You may have noticed that Gema has not been to the meetings recently. She had a baby on Sat Jan 23rd! Congratulations Gema!

IV. APPROVAL OF MINUTES: (Discussion/Action)

M. Bowen called for a motion to approve the minutes from the 2/2/21 Curriculum Committee meeting

Motion by: P. Sezzi

Seconded by: D. Clark

Discussion: None

Final resolution: Minutes from the 2/2/21 meeting approved as presented

V. OLD BUSINESS (Discussion/Action)

A. None

VI. POLICY AND PROCESS (Information or Discussion/Action)

A. Review of Curriculum process: CCT Task Force Updates (Standing Item; Discussion) - G. Wood

G. Wood: Continuing our work – screen was shared to see the proposed updates, including extensive and interactive acronym list.

B. GE Removal Rubric (Discussion/Action; see attachment) – M. Bowen

If we receive a request from Faculty to remove a course from a GE list, we would like to use the rubric presented. This item will be on the P&GE agenda at the upcoming 3/2 P&GE meeting.

M. Bowen called for a motion to approve the form for use

Motion by: D. Clark

Seconded by: C. Branciforte

Discussion: D Clark: 4th question on the form (regarding equity) - What is the purpose of this question and how will it be used by the P&GE workgroup?

Answer: Originally questions were more direct, but as they were discussed in technical review, but it was pointed out that we don't have this information. So any answer would be speculative rather than data driven – so questions were reworked.

J. Garner – would hesitate having these open questions before the more direct questions.

Can we hold off on that until we know what we're really looking for? Don't want to have something put in there as just a bookmark that may end up causing more problems.

M. Rivera - Is there an opportunity to share how an inactivation will affect programs, if any to this form?

Clarification: This form is not for courses being inactivated and removed from the catalog. This is for courses that will remain active and in the catalog, but will be removed from the local GE list.

Final resolution: GE Removal Rubric forms approved

Yes: M. Bowen, C. Branciforte, M. Callahan, D. Clark, N. Falco, D. Farias, R. Gamboa, K. Guzman Gonzalez, M. Rivera, P. Sezzi, M. Werness- Rude

*Dept. has asked this course be removed from CSU transferability list

C. FIRST READING: PROGRAM PROPOSALS FOR APPROVAL

1. None

Question: What should the process be for addressing an issue where we don't want a course to be on the CSU list, but the CSU colleges think it is transferable?

Answer: CSU campuses have left this decision up to the colleges.

M. Bowen called for a motion to approve the First Reading proposals

Motion by: R. Gamboa

Seconded by: P. Sezzi

Discussion: M. Rivera - CD V14 concern about being removed from the CSU list.

M. Rivera amended the motion to remove CD V14 from this vote and consider this course separately.

Seconded: R. Gamboa

Motion amendment approved by acclamation.

D. Farias –CD V14 was put on this list, but it is not clear if this was ever CSU transferrable.

This looks like a course that was changed by a CourseLeaf error.

Could be correct, but it was showing as transferrable in the catalog and in COCI.

Final resolution: Motion amended and passed. First reading proposals BUS V94, CD V11 and CD V19 approved.

Yes: M. Bowen, C. Branciforte, M. Callahan, D. Clark, N. Falco, D. Farias, R. Gamboa, K. Guzman Gonzalez, M. Rivera, P. Sezzi, M. Werness- Rude

Recorder's Note: J. Garner not present for this vote.

M. Rivera moved to consider CD V14 separately for approval

Motion by: M. Rivera

Seconded by: K. Guzman Gonzalez

Discussion: There is concern regarding this course being removed from the CSU transferability list.
D. Farias – If the old COR didn't have this listed, could this be a mistake? One of these things must be a mistake (CIM vs catalog and COCI).
Comment: D. Hall who is the lead faculty on this course has said that this course should not be considered a CSU transferable course.

An affirmative vote means you are approving the course

Final resolution: CD V14 approved for First Reading

- a) The evaluation of credit for AP, IB and CLEP examination scores is done by a college counselor. Counselors may require additional documentation or information as necessary to determine eligibility for external credit.
- b) Credit granted for the examinations may be counted as credit toward an associate degree. The Counseling faculty at each District College will determine how the credit is used to satisfy general education and major requirements for the associate degree.
- c) Credit granted for these examinations may also be counted toward the satisfaction of IGETC or CSU-GE areas as allowed by the applicable standards for each form of transfer general education certification.
- d) Credit awarded for AP, IB and CLEP examinations shall not impact the student's GPA.
- e) Students granted credit for AP, IB or CLEP examinations shall not earn credit toward an associate degree for duplicated college courses.
- f) Other colleges or universities may have different policies concerning the granting of credit for AP, IB and CLEP examinations, and will evaluate the examinations based upon their own policies and practices.

II. Internal Department Examinations (Locally Administered Exams)

- a) Students may challenge a given course via the internal departmental examination (locally administered exam) process only once and will be charged the current enrollment fee per unit regardless so the grade received.
- b) Students will receive credit by satisfactory completion of an examination administered by the District College in lieu of completion of a course listed in the college catalog, provided that Credit by Examination is permitted for the course. See the Courses Excluded from Credit by Examination List maintained by each District College. Credit will be awarded with a letter grade and/or P/NP (if the latter is ordinarily available for the course). If a letter grade is awarded, it will be incorporated in the computation of the student's grade point average.
- c) A student may be granted credit if he or she satisfactorily passes an examination approved and conducted by the District College discipline faculty. Such credit may be granted only to a student who is registered at the District College and not on either academic probation or progress probation, and only for a course listed in the District College's catalog.
- d) The nature and content of the exam shall be determined solely by the District College discipline faculty in accordance with Title 5 Section 55002.
- e) Units for which credit is given pursuant to this provision shall not be counted in determining the 12 semester hours of credit in residency requirement for an associate degree.
- f) A District College shall charge a student a fee for administering an examination pursuant to this provision which is equal to the enrollment fee for the course.

III. High School to College Articulation

High school students may be granted college credit pursuant to established articulation agreements between the high school and a District College. - a) Certificate requirements, including the total number of units required for the certificate; or
- b) The major or area of emphasis requirements in a degree program. Students who complete articulated comparable courses must pass an exam to earn college credit for general education and/or major requirements for the associate degree.

Credit by Examination for a High School Articulated Course:

1. Determination of Eligibility
 - a. The course to which the units will apply must be listed in the college catalog.
 - b. The student must be currently registered at a high school with which a District College has an articulation agreement and in good standing as defined by their cumulative GPA at a minimum of 2.0 at the time the Credit by Examination is granted.
 - c. The student has not earned college credit in more advanced subject-matter, and has not received a grade (A, B, C, D, F, W, CR, CRE, NC, NP, or equivalent), in the course for which he or she is seeking Credit by Examination at a District College or at any other educational institution.
2. Receiving Credit by Examination

5 CCR § 55050

§ 55050. Credit for Prior Learning.

- (a) The governing board of each community college district shall adopt and publish policies pertaining to credit for prior learning. The policies shall be transparent and accessible to all stakeholders, published at least in college catalogs. Procedures for students to attain credit for prior learning shall include, but not be limited to, credit by examination, evaluation of Joint Services Transcripts, evaluation of student-created portfolios, evaluation of industry-recognized credential documentation, and standardized exams.
- (b) The governing board may grant credit to any student who satisfactorily passes an assessment approved or conducted by proper authorities of the college. For purposes of this section, “assessment” means the process that faculty undertake with a student to ensure the student demonstrates sufficient mastery of the course outcomes as set forth in the course outline of record. “Sufficient mastery” means having attained a level of knowledge, skill, and information equivalent to that demonstrated generally by students who receive the minimum passing grade in the course.
- (c) The nature and content of the assessment shall be determined solely by faculty in the discipline who normally teach the course for which credit is to be granted in accordance with policies and procedures approved by the curriculum committee established pursuant to section 55002. The faculty shall determine that the assessment adequately measures mastery of the course content as set forth in the outline of record. The faculty may accept an assessment conducted at a location other than the community college for this purpose.
- (d) Credit may be awarded for prior experience or prior learning only for individually identified courses with subject matter similar to that of the individual's prior learning, and only for a course listed in the catalog of the community college. Colleges shall consider the credit recommendations of the American Council on Education pursuant to Education Code section 66025.71. Upon a student's demonstration of sufficient mastery through an examination or assessment, an award of credit should be made, if possible, to California Intersegmental General Education Transfer Curriculum, California State University General Education Breadth, and local community college general

education requirements or requirements for a student's chosen program. Award of credit may be made to electives for students who do not require additional general education or program credits to meet their goals.

(e) Credit by Examination: The determination to offer credit by examination rests solely on the discretion of the discipline faculty. A separate examination shall be conducted for each course for which credit is to be granted. Credit may be granted only to a student who is registered at the college and in good standing and only for a course listed in the catalog of the community college.

(f) The student's academic record shall be clearly annotated to reflect that credit was earned by assessment of prior learning.

(g) Grading shall be according to the regular grading system approved by the governing board pursuant to section 55023, except that students shall be offered a "pass-no pass" option if that option is ordinarily available for the course.

(h) Units for which credit is given pursuant to the provisions of this section shall not be counted in determining the 12 semester hours of credit in residence required for an associate degree.

(i) A district may charge a student a fee for administering an examination pursuant to this section, provided the fee does not exceed the enrollment fee which would be associated with enrollment in the course for which the student seeks credit by examination.

(j) The policies and procedures adopted by the governing board of a community college district pursuant to this section shall require that a student, upon completion of their educational plan pursuant to California Education Code Section 78212, shall be referred to the college's appropriate authority for assessment of prior learning if the student is a veteran or an active-duty member of the armed forces, holds industry-recognized credentials, or requests credit for a course based on their prior learning.

(k) The policies for assessments adopted by the governing board of a community college shall offer students an opportunity to accept, decline, or appeal decisions related to the award of credit, and in cases of credit by exam, pursuant to sections 55021 and 55025.

(l) The governing board of each community college district shall review the credit for prior learning policy every three years and report findings to the Chancellor's Office. Findings shall include data disaggregated by gender and race/ethnicity including the number of students who received credit for prior learning, the number of credits awarded per student, retention and persistence rates of students earning credit for prior learning, completion data (for certificate, degree, and transfer) for students earning credit for prior learning, and qualitative assessments by students of the policies and procedures.

(m) The governing board of each community college district shall incorporate policies pursuant to section 55052 on College Board Advanced Placement examinations and any other districtwide policies governing the award of credit for prior learning to create a comprehensive credit for prior learning policy.

(n) By December 31, 2020, the district shall certify in writing to the Chancellor of the California Community Colleges that the policies required by this section have been adopted and implemented.

Hi Michael and Sarah,

In light of the new CSU Ethnic Studies requirement (AB 1460), the history department has decided to break the co-listing relationship between HIST V79 and AES V61, and then to **inactivate AES V61** while **retaining HIST V79**.

The appended email thread serves in lieu of the usual department chair notification we require when a course is to be inactivated. If you retain an archive of course inactivation notifications, please add this message to that archive to document why AES V61 will not appear in the next catalog.

The applicable proposals (revision of HIST V79 and inactivation of AES V61) should be making their way through CIM fairly soon; the originator will likely be Scott Corbett, who will be returning from retirement to teach for us as an adjunct this spring and perhaps beyond.

Kind regards, --Michael

Everyone is in agreement with removing HIST V79 from its AES cross listing, so let's go ahead and do that.

Thanks to Rubisela and Colleen for your input.

Subject: Fw: Ethnic studies Meeting

Dear Esteemed Colleagues,

I am writing this with regards to the status of our efforts to construct a solid and genuine American Ethnic Studies program in light of the new expectations regarding such courses from the CsU system. This is the essence of the Academic Senate for the CSU resolution:

RESOLVED: That the ASCSU recommend the adoption of the following five core ethnic studies competencies iteratively developed by the CSU Council on Ethnic Studies and the ASCSU:

- analyze and articulate concepts of ethnic studies, including but not limited to race and ethnicity, racialization, equity, ethno-centrism, eurocentrism, white supremacy, self-determination, liberation, decolonization and anti-racism.
- apply theory to describe critical events in the histories, cultures, and intellectual traditions, with special focus on the lived-experiences and social struggles of one or more of the following four historically defined racialized core groups: Native Americans, African Americans, Latina/o Americans, and/or Asian Americans, and emphasizing agency and group-affirmation.
- critically discuss the intersection of race and ethnicity with other forms of difference affected by hierarchy and oppression, such as class, gender, sexuality, religion, spirituality, national origin, immigration status, ability, and/or age.
- describe how struggle, resistance, social justice, solidarity, and liberation as experienced by communities of color are relevant to current issues.

Here is the course catalogue description of Hist V79 (which is cross listed as AES V61)

HIST V79 - INTRODUCTION TO THE HISTORY OF EAST ASIA : 3 Units Hours: 3 lecture weekly This course will present a historical survey of the countries and cultures of East Asia with a principal focus on China and Japan. An emphasis will be placed on the impact of traditional Chinese and Japanese antiquity on the present, the impact of the culture and heritage of each nation on the other, and the impact of the West on both major nations. Field trips may be required. Formerly Hist 15 and HIST V15. Same as AES V61. Transfer credit: CSU; UC; credit limitations - see counselor.

I simply do not see how Hist V79 really has any content in it that would enable it to fulfill the expectations the CSU has for America Ethnic Studies courses.

Therefore, I respectfully request that I be permitted to update Hist V79 (preparatory to offering it as soon as the process is completed) by eliminating the cross listing. Concomitantly, AES V61 should be deleted from

the catalogue as I do not see how we could revise that course to make it a suitable American Ethnic Studies Course.

In order to effect the deletion of AES V61 we [Curriculum Gurus] would need a brief memo from the department chair, addressed to Michael Callahan , Sarah Ayala, and Michael Bowen, stating that the inactivation was agreed to by department faculty and not coerced by any manager. Once that is done, then I can get started in updating Hist V79.

I hope you all can see the simple logic of all of this and agree with this plan of action.

Please, everyone stay healthy. Be Positive and test negative.

Best,
P. Scott

Rubisela,

So, Hist V50/AES V63 [Focusing on American history and the Asian American experience] would no longer be

co-listed as a history course?

As for Hist V79/AES V61 I am proposing that it not be listed as an AES course at all as it is inappropriate considering what the content of a course on East Asian history should be.

Does that make sense to you?

Hey Rubisela (and the rest of the team),

Ok, thanks for the information and the guidance. I will make sure my course in the spring attends to and address all the rubrics in meaningful and engaging ways.

Now given these rubrics, might I respectfully ask that we remove the AES V61 designation/listing for History V79 quietly and without controversy?

a) Advanced Placement (AP): Students who earn scores of 3, 4 or 5 on the College Board AP Examinations taken before high school graduation will receive credit for each exam as specified in the catalog of the District College.

b) International Baccalaureate (IB): Students who complete the IB diploma with a score of 30 or above, ~~and/or~~ will receive 20 units of credit. Students

who complete the IB Higher Level examinations with scores of 4, 5, 6 or 7 will receive credit for each exam as specified in the catalog of the District

College. A score of 4 or higher on the IB Mathematics HL exam will satisfy the math competency requirement for the associate degree. Students will not receive credit for Standard Level exams.

c) College Level Examination Program (CLEP): Students who earn scores of 50 or higher on a CLEP exam will receive credit for each exam as specified in the catalog of the District College.

Cut Scores

- The number of units awarded for each type of examination is subject to change based on the establishment of cut scores and/or other evaluative measures developed by District College faculty in collaboration with Academic Senates and/or a CSU Chancellor's Office policy pursuant to AB 1985, and/or Intersegmental General Education Transfer Curriculum (IGETC) Standards, Policies, and Procedures latest version.

Credit for External Examinations (AP, IB and CLEP):

- The evaluation of credit for AP, IB and CLEP examination scores is done by a college counselor. Counselors may require additional documentation or information as necessary to determine eligibility for external credit.
- Credit granted for the examinations may be counted as credit toward an associate degree. The Counseling faculty at each District College will determine how the credit is used to satisfy general education and major requirements for the associate degree.
- Credit granted for these examinations may also be counted toward the satisfaction of IGETC or CSU-GE areas as allowed by the applicable standards for each form of transfer general education certification.
- Credit awarded for AP, IB and CLEP examinations shall not impact the student's GPA.
- Students granted credit for AP, IB or CLEP examinations shall not earn credit toward an associate degree for duplicated college courses.
- Other colleges or universities may have different policies concerning the granting of credit for AP, IB and CLEP examinations, and will evaluate the examinations based upon their own policies and practices.

II. Internal Departmental Examinations: (Locally administered exams):

a) Students will receive credit by satisfactory completion of an examination administered by the District College in lieu of completion of a course listed

in the college catalog, provided that Credit by Examination is permitted for the course. See the Courses Excluded from Credit by Examination list

maintained by each District College. Credit will be awarded with a letter grade and/or P/NP (if the latter is ordinarily available for the course). If a

letter grade is awarded, it will be incorporated in the computation of the student's grade point average.

b) A student may be granted credit if he or she satisfactorily passes an examination approved and conducted by the District College discipline faculty.

Such credit may be granted only to a student who is registered at the District College and not on either academic probation or progress probation,

and only for a course listed in the District College's catalog.

c) The nature and content of the exam shall be determined solely by the District College discipline faculty in accordance with Title 5 Section 55002. ~~The~~

~~examination must be conducted on the campus of a District College or at a District satellite site.~~

d) Units for which credit is given pursuant to this provision shall not be counted in determining the 12 semester hours of credit in residency requirement

for an associate degree.

e) A District College shall charge a student a fee for administering an examination pursuant to this provision which is equal to the enrollment fee for the course.

Credit for Internal Credit by Examination:

- The appropriate petition, (a "Petition for Credit by Examination" form) will be completed by the student and a college counselor, and forwarded to the appropriate academic division for administration of the examination.
- Petitions must be approved by the division dean and received by the administering instructor no later than Friday of the tenth week of the full-length semester.

3. Units and Grades Recorded for Credit by Examination:

- Transcript entries shall distinguish credit units obtained by examination from credit units obtained as a result of regular course enrollment.
- A student seeking credit by examination will receive the appropriate letter grade (A, B, C, D, F, or P/NP) and will be charged the current enrollment fee per unit regardless of the grade received. Students who are unsuccessful in an attempt to challenge a course by examination will receive a D, F, or NP, and a record of the attempt for credit by examination will appear on a student's transcript.

III. High School to College Articulation: ~~(Title 5 Section 55051)~~

High school students may be granted college credit pursuant to established articulation agreements between the high school and a District College. The

Board of Trustees shall permit articulated courses to be applied to certificate or associate degree requirements in accordance with this provision. The

per-unit fee for high school credit by examination will not be charged. Articulated high school courses may be accepted in lieu of comparable District

College courses to partially satisfy:

- a) Certificate requirements, including the total number of units required for the certificate; or
 - b) The major or area of emphasis requirements in a degree program. Students who complete articulated comparable courses must pass an exam to
- earn college credit for general education and/or major requirements for the associate degree.

Cut Scores

- ~~The number of units awarded for each type of examination is subject to change based on the establishment of cut scores and/or other evaluative measures developed by District college faculty in collaboration with the Academic Senates and/or a CSU Chancellor's Office policy as pursuant to the AB 1985, and/or Intersegmental General Education Transfer Curriculum (IGETC) Standards, Policies and Procedures latest version.~~

Programs: Documentation, Procedures, and Guide to Technical Review and Style

Introduction

This section discusses technical aspects of writing and reviewing a program outline. The comments (particularly those containing second-person pronouns such as “you” or “your”) are aimed primarily at program outline originators, but technical reviewers and Curriculum Committee members should also be alert to deviations from these guidelines when reviewing a program outline. Technical reviewers may either correct them during review or refer them back to the program originator for correction.

Curriculum Committee members (including non-voting members and classified professionals) may make comments in the course management system (CMS), email the originator with questions, and/or bring up remaining concerns when the program outline is forwarded to the Curriculum Committee for discussion and approval. The earlier in the approval process that a question or error is identified and reported, the easier it is to correct.

Required Documentation

Much of the information requested in the program Narrative is also needed to complete the program outline in CIM. Depending on the program type and goal, completion of some of the data fields may be optional. Transfer degrees (AA-T, AS-T, and UCTP) generally require the least information. CTE degrees and certificates require additional information, typically including a Labor Market Information (LMI) report, and minutes of meetings of the regional consortium and local advisory group documenting these bodies' recommendations. Apprenticeship programs require an approval letter from the state Division of Apprenticeship Standards (DAS).

Attach electronic copies of program-related documents (including, but not limited to, those appearing in the following list) to the program proposal in the CMS if the PCAH or supplemental guidance from the CCCCCO (such as that documented in the subsection titled *Program Revision Development and Approval Procedure* on page 87) requires them for the type of program being prepared:

- Narrative (for all degrees, certificates, and proficiency awards, whether new or revised, although some sections may be omitted depending on the type of award, as prescribed in the PCAH)
- Transfer Model Curriculum (TMC) form (only for ADT and UCTP degrees)
- AAM/BCT/GECC articulation documentation as appropriate (only for ADT and UCTP degrees); typically furnished by the articulation officer using ASSIST reports
- New Program forms CP-3 and CP-4 (credit) or NP-3 and NP-4 (noncredit) (for all **new** degrees, certificates, and proficiency awards); these are available on the Curriculum Committee website
- LMI analysis (for all CTE degrees, credit and noncredit certificates, and proficiency awards)
- Regional consortium minutes (for all **new CTE** degrees, credit and noncredit certificates, and proficiency awards)
- Local advisory group minutes (for all **new CTE** degrees, credit and noncredit certificates, and proficiency awards)

- DAS approval letter (only for apprenticeship programs)
- Transfer information (for new AA and AS degrees, other than transfer degrees, but including apprenticeships, that may nevertheless contain a transfer component)
- Letters of support (for local and, optionally, CTE degrees that support or address community needs; other forms of documentation may be more appropriate in some instances)

Originators: please attach only **ONE** copy of each required document to the program proposal in the CMS. Also please submit the Narrative and (for transfer degrees) the TMC as Word documents so the technical review team may edit them if necessary. All other documents listed above are not subject to editing during technical review; you may submit them in any commonly used document format (Word, PDF, etc.) that is convenient for you. Again, please **upload** CTE-related documentation to the CMS as attachments rather than incorporating the information as appendices to the Narrative.

New Program Development and Approval Procedure

The Curriculum Committee adopted this procedure beginning Fall 2020.

1. **Host department** (discusses program concept and votes to approve its development)
2. **Originator** (Initiates the new program proposal in CIM but, at this stage, only completes the data fields in the upper portion of the CIM program form, up to and including the Program Goals and Objectives field in the Program Narrative section, and does NOT submit to workflow yet)
3. **Originator** (completes New-Program forms, TMC [for transfer degrees only], and draft Narrative, and attaches these to CIM in the area immediately below the *Program Goals and Objectives* field)
4. **Extended technical review meeting** (the program originator and [if possible] the area dean will normally attend to answer questions and receive comments and recommendations)
5. **Originator** (meets with technical review team member[s] for consultation and training on how to complete the rest of the program form)
6. **Originator** (completes CIM, adjusts the Narrative, compiles other state-required documentation [LMI, advisory committee recommendation, regional consortium recommendation, etc.] and uploads to CIM as file attachments, submits completed package to workflow and [NEW!] submits copies of CIM program outline [PDF export] and program file attachments to the department chair and division office for safekeeping to back up the Student Learning Office's records)
7. **Technical review team** (works with originator behind the scenes to check and correct format and legal/articulation issues)
8. **Curriculum technical review meeting** (originator or designee and area dean are invited to discuss program and answer questions)
9. **Curriculum committee** (full review and final campus-level approval)
10. **DTRW-I** (initial district-level technical review and preparation for submission to BOT)
11. **Chancellor's Cabinet** (review) and **Policy, Planning, and Student Success Committee** (review)
12. **BOT** (final district-level approval)
13. **Curriculum technician** (submits program information to COCI at the state chancellor's office and forwards program proposal to the Banner step in CIM)
14. **CCCCO** (conducts state-level review, approval, and/or chaptering)
15. **Academic data specialists** (enter program data into the SIS, DegreeWorks, etc.)
16. **CIO** (to ACCJC so students enrolling in program become eligible for federal financial aid)

Program Revision Development and Approval Procedure

As courses are added or removed, it may become necessary to revise program descriptions or requirements. ADTs must be periodically revised to conform to the most recent template (TMC), even in the absence of course changes. The procedure is like that for new programs, except that the new program paperwork and extended technical review, district-level review and approval, and submission to ACCJC are not required if the focus and purpose of the program are not significantly changing. Programs undergoing significant change should be treated as new so that the CCCCCO may assign a new control number. Per [CCCCCO Memorandum AA 18-56](#), it is no longer necessary to distinguish between substantial and nonsubstantial changes to programs.

In a memo dated 12/06/2019, David Garcia, Program Analyst in the CCCCCO's Educational Services and Support Division, stated that while narrative items 1 through 7 are required for new program submissions, only items 1 through 3 are required for program modification submissions. This is notwithstanding contradictory information published in the 7th edition of the PCAH.

Narrative

All program proposals intended to be approved and chaptered by the CCCCCO require a Narrative containing elements as described in the PCAH or as clarified (for modified programs only) in [CCCCCO Memorandum AA 18-56](#) and subsequently published CCCCCO memoranda.

Narrative templates for all program types (degrees, credit certificates, proficiency awards, and noncredit certificates) are provided on the Curriculum Committee forms web page.

Many of the free-form data fields in the CourseLeaf CIM program form correspond directly to elements required in the Narrative. The Narrative (**not** CIM!) is therefore often the best place to begin working on a program proposal (except that for new programs, the originator should start with the New Program forms instead, as described in the subsection titled *New Program Development and Approval Procedure* above). For transfer degrees, the TMC should be completed before documenting the program requirements in the Narrative. Some elements of the general narrative are not required, depending on the program type and goals, and whether it is a new or revision proposal. To the extent that the PCAH does not require preparation of a Narrative element for a certain program, the program originator may simply enter "(Not required)" for the corresponding data field(s) in the CIM program form.

Proficiency awards (PAs) do not require CCCCCO approval and chaptering; however, Curriculum Committee may, at its discretion, still require the host department to prepare a narrative-like document so that key information about the PA may be provided to DTRW-I and BOT; the latter must approve PAs and all other new programs (as well as all program inactivations).

If, as recommended, a program originator completes the narrative before beginning data entry activities in CIM, the originator may simply copy-and-paste the requested information from the narrative directly to the corresponding field in CIM. The only exception is that tables from the narrative (such as requirements lists, TMCs, study plans, enrollment projections, etc.), whether text-based or graphical, will not paste successfully into the CIM program form. It is therefore necessary to reconstruct these manually in CIM using CIM's built-in table construction and formatting tools. Also, the originator should paste an electronic copy of the complete Narrative document into the Program Goals and Objectives section of the CIM program outline. Copies of the new program forms (CP-3 and CP-4 for credit programs, or NP-3 and NP-4 for noncredit programs) should also be uploaded there.

Details concerning the information required in each section of the Narrative and the specific Narrative sections required for each type of degree proposal will be addressed in the applicable subsections of the [*Technical Review and Style Guide for CMS Data Fields*](#) section. A summary table of recommended correlations between CIM data fields and the Narrative items, ordered by the location of the CIM data field in the program outline data entry form, is provided in the following tables. Each table contains the same information, but the first is sorted according to the order in which CIM field names are laid out in the program outline, and the second table is sorted by the order in which items appear in the Narrative.

(Text resumes following Table 2.)

Program Titles

A single program generally has several versions of the title. The official title (“catalog title”) appears in the heading of the catalog program description and in the main heading of the program Narrative. The title used in the CMS (“program title”) is a rearranged version of the catalog title that optimizes the location and identification of programs in the CMS system. A third version of the program title is the Banner title, the abbreviated version of the title that appears on student records such as transcripts. The “Banner title” is limited to 30 characters in length, including spaces and punctuation. The Banner title is usually an abbreviation of the program title, although these two are identical if the full program title contains 30 or fewer characters. The following comparison illustrates the differences in the title structures for an example of each award type.

Associate in Science for Transfer:

- Catalog title: Associate in Science in Mathematics for Transfer
- Program title: Mathematics for Transfer, AS-T
- Banner title: Mathematics for Transfer, AS-T (*same as program title since both fit within 30 characters*)

Associate in Arts for Transfer:

- Catalog title: Associate in Arts in Film, Television, and Electronic Media for Transfer
- Program title: Film, Television, and Electronic Media for Transfer, AA-T
- Banner title: Film/TV/Electron Media Tr, AA-T (*heavily abbreviated version of program title*)

Associate in Science for UC Transfer:

- Catalog title: Associate in Science in Chemistry for UC Transfer
- Program title: Chemistry for UC Transfer, AS-UCTP

Technical Review and Style Guide for CMS Data Fields

This subsection contains detailed instructions for completing every field that may appear on the program outline form. Not all these fields may be visible in any given program proposal; the CMS populates the form fields dynamically according to the originator-selected program award and program goals, and hides fields that are not applicable. When completing the fields, keep in mind that the purpose of the Narrative-related items listed in the preceding table is to document that the development criteria for credit and noncredit programs enumerated in the PCAH are satisfied. These are

1. Appropriateness to Mission
2. Need
3. Curriculum Standards
4. Adequate Resources
5. Compliance

Unless stated otherwise, appropriate data must be selected or typed into each of the fields described below. When applicable, the text entered should address the preceding development criteria.

This is a long section not designed to be read in one sitting. It is recommended that you use it as a reference rather than as a tutorial. The discussion of each field is self-contained (although it may refer to other related data fields). If you are stuck on just one or two data fields, you may skip down to the heading corresponding to the field name(s) of interest. The following instructions may not address all conceivable situations. If reading them does not fully answer your questions, please consult with the curriculum leadership team for additional details and guidance.

Originator

This field has no correspondence with any program Narrative item.

This field is normally populated automatically; it indicates the user ID of the first person to click the silver “Save” button for a new or modified program proposal. Do not edit this field unless that person has also been added as a co-contributor; otherwise he/she will be blocked from making future edits to the proposal.

Co-Contributors

This field has no correspondence with any program Narrative item.

These are the names of other faculty members authorized to edit the proposal. In keeping with the philosophy of the 10+1, deans and classified professionals should not be listed as Co-Contributors. Either

the Originator or other Co-Contributors may edit this field. Click the green plus-sign button to add a Co-Contributor using the drop-down menu. Click the red “x” button to remove a Co-Contributor.

College

This field has no correspondence with any program Narrative item.

Select “Ventura College” from the drop-down menu. Otherwise you may be blocked from saving the proposal.

Division

This field has no correspondence with any program Narrative item.

Select the host division from the drop-down menu. If it does not appear there, then a user with administrative privileges must add it to the system; please bring this to the attention of the curriculum leadership team. You must select a choice for the College field before the drop-down menu for this field will populate with appropriate division names.

Program Title

This field has no correspondence with any program Narrative item. However, it should be closely related to the catalog title, which should also be used in the Narrative main title preceding Item 1 and at the beginning of the catalog description.

The Program Title, should specify the discipline, GE pattern, or area of emphasis name, followed by a comma and a short identifying suffix stating the specific type of award. This should exactly match LOCAL TITLE in the curriculum tracking database. However, it will usually not match the catalog title, which should also be the main title used to start off the Catalog Description field. The title should be fully descriptive and not contain any abbreviations except

- The identifying suffix stating the award type
- The “UC” in “UC Transfer” (for UCTP degrees only)

ADT program titles must include the phrase “for Transfer” placed just before the comma and award type identifying suffix. UCTP program titles must include the phrase “for UC Transfer” placed similarly.

Specify the Program Title in title case; most words should be capitalized. However, the following words should **not** be capitalized unless they are the first word in the Program Title:

- Prepositions of four or fewer letters (*e.g.*, “in,” “for,” “with”)
- Conjunctions of four or fewer letters (*e.g.*, “and,” “or”)
- Articles containing any number of letters (*e.g.*, “a,” “an,” “the”)
- The word “to,” whether used as a preposition or as part of an infinitive (if used as part of an infinitive, the verb following “to” is capitalized)

Use “and” rather than “&.” Use the Oxford comma for lists containing three or more items (“red, white, and blue” rather than “red, white and blue”). Examples of properly stated Program Titles include

- Mathematics for Transfer, AS-T
- Film, Television, and Electronic Media for Transfer, AA-T (note the Oxford comma following “Television”)
- Chemistry for UC Transfer, AS-UCTP
- Advanced Manufacturing, AS

- Pre-Allied Health Sciences, AA
- Technical Theatre Production, PA
- Technology and Workplace Competencies, COCN

ADTs should be classified as either AA-T or AS-T based on the designation provided in the degree title in the TMC. Local and CTE degrees should be classified as AS if the degree is in a STEM or CTE discipline. Local degrees in other disciplines should be classified as AA.

The full **catalog** title (*e.g.*, “Associate in Science in Mathematics for Transfer”) will appear in the Catalog Description section. It should also appear in the title of the program Narrative. The slightly abbreviated format shown in the list above makes the awards easier to locate and identify via the CMS search function and will not be published in the catalog.

When describing traditional associate degrees in the program Narrative, please use consistent terminology:

- Associate in Arts (not Associate of Arts or Associates in Arts or Associates of Arts)
- Associate in Science (not Associate of Science or Associates in Sciences or Associates of Science)
- (Generic) Associate Degree (not Associates Degree or Associate’s Degree or Associates’ Degree)

When describing transfer degrees in the program Narrative, please use consistent terminology:

- Associate in Arts in <discipline> for Transfer or AA-T in <discipline> or <discipline> AA-T
- Associate in Science in <discipline> for Transfer or AS-T in <discipline> or <discipline> AS-T
- (Generic) Associate Degree for Transfer or ADT

Banner Title

This field has no correspondence with any program Narrative item.

If the Program Title contains 30 or fewer characters (including spaces and punctuation), use the Program Title as the Banner Title without abbreviating it. Otherwise create an abbreviated (no more than 30 characters) but readable form of the program name. Slashes are acceptable here to save space; for example, you may abbreviate “Red, White, and Blue” as “Red/White/Blue.” The trailing comma and award type suffix should match what is used in the Program Title field exactly. The suffix is necessary because most credit certificates have a companion AA or AS degree with the same name; without the suffix, the programs are indistinguishable in the SIS and CMS. For better readability, omit letters from long words in blocks rather than individually; for example, abbreviate “Vocabulary” as “Vocab” rather than as “Vcblry”. Exceptions to this rule of thumb would include widely understood abbreviations such as “Mgmt” for “Management” or “Bldg” for “Building” or “Acct” for “Account” or “Accounting.” Examples of properly stated Banner titles for programs include

- Mathematics for Transfer, AS-T
- Film/TV/Electron Media Tr, AA-T
- Chemistry/UC Transfer, UCTP
- Basic Law Enforcement, COCN

When submitting affiliated degrees and certificates of achievement, use parallel naming and abbreviations in the Banner title for the degree and for the certificate.

Type of Program

This field has no correspondence with any program Narrative item.

If the program is an Associate Degree (including ADTs and UCTPs), a Certificate of Achievement, or a Proficiency Award, then select “Credit” from the drop-down menu. If the program is a Certificate of Completion, Certificate of Competency, or another noncredit program (such as an Adult High School Diploma Program or a Noncredit Apprenticeship Program), then select “Noncredit.”

Noncredit Programs Type

This field has no correspondence with any program Narrative item.

This field is only visible for noncredit programs (as determined by the response given in the Type of Program field). If this field is visible, select the award type from the drop-down menu. If the award type does not appear in the menu, it may be the first of its type created in the VCCCD (ask your curriculum leadership team to update the list), or it may be a credit program (verify the choice selected in the preceding field).

CDCP Eligibility Criteria

This field has no correspondence with any program Narrative item.

This field is only visible for noncredit programs (as determined by the response given in the Type of Program field). If this field is visible and the program is eligible for CDCP enhanced funding, select the program classification from the drop-down menu. If the program classification does not appear in the drop-down menu, then the program is not eligible for enhanced funding; in this case, do not select any of the menu choices. Note that “Elementary and Secondary Basic Skills (C)” only applies to programs whose purpose is to teach mathematics or English skills to the general population; it should not be selected for special-population programs, *e.g.*, programs that are aimed at EAC students.

If the choice “Short-Term Vocational (I)” is selected, then an LMI analysis must be obtained (*e.g.*, from Centers for Excellence) and attached to the CIM proposal. The LMI analysis is not required for a noncredit program if any other code is selected for this field, or if none of the CDCP codes apply.

Program Award/Degree

This field has no correspondence with any program Narrative item.

This should describe the program type. It should also correspond to the suffix used in the Program Title and Banner Title fields, as defined in the table below. Note that COCI and the SIS do not yet support UCTP degrees, so we will treat them as ADTs until these systems are updated with the new degree type.

PROGRAM AWARD/DEGREE FIELD ENTRY	SUFFIX IN PROGRAM TITLE & BANNER TITLE FIELD ENTRIES
A.A. Degree (A)	AA
A.S. Degree (S)	AS
AA-T Degree (Y)	AA-T
AS-T Degree (X)	AS-T

PROGRAM AWARD/DEGREE FIELD ENTRY	SUFFIX IN PROGRAM TITLE & BANNER TITLE FIELD ENTRIES
AA-UCTP Degree	AA-UCT ¹
AS-UCTP Degree	AS-UCT ¹
Certificate of Achievement (credit) requiring 8 to less than 16 semester units (M)	COA
Certificate of Achievement (credit) requiring 16 to less than 30 semester units (N)	COA
Certificate of Achievement (credit) requiring 30 to less than 60 semester units (T)	COA
Certificate of Achievement (credit) requiring 60 or more semester units (F)	COA
Proficiency Award (credit) (local award, does not require state approval but does require BOT approval)	PA
Certificate of Completion (noncredit) (NIL)	COCN
Certificate of Competency (noncredit) (NIL)	COCY
Other	(consult with the curriculum leadership team)

Program Goals

This field has no correspondence with any program Narrative item.

This should describe the program goals as defined in the PCAH. Select a goal according to the criteria in the table that follows:

PROGRAM GOAL FIELD ENTRY	APPLICABLE PROGRAM TYPES
C—CTE	A.A. and A.S. degrees (other than ADT or UCTP degrees) in a CTE TOP code and Certificates of Achievement in a CTE TOP code; includes degrees and certificates that may also prepare students for transfer
T—Transfer	All ADT and UCTP degrees (including those with a CTE TOP code), and Certificates of Achievement for IGETC or CSU GE-Breadth
O—Local	All other A.A. and A.S. degrees and certificates not in a CTE TOP code

The PCAH is not specific regarding the classification of noncredit programs. Our local convention is to use either CTE or Local depending on the noncredit program's TOP code, in accordance with the criteria set out in the above table for credit programs. Do not use "T—Transfer" as the goal for any noncredit program.

¹ The SIS field for this information allows a maximum of six characters; therefore the "P" is omitted.

Start Semester

This field has no correspondence with any program Narrative item.

This should ordinarily be Fall. Due to issues with scheduling and catalog preparation, Spring or Summer start semesters are accepted only in emergency situations as agreed to by both Curriculum Committee co-chairs and subsequently approved by the full Curriculum Committee.

Start Year

This field has no correspondence with any program Narrative item.

This should be determined in accordance with the Curriculum Committee's published deadlines for submission and approval. Ordinarily, programs submitted and approved during Fall semester are approved for the immediately following Fall semester, and programs submitted and approved during Spring semester are approved for the **second** Fall semester following submission.

Discipline/Department

This field has no correspondence with any program Narrative item.

Select the host department from the drop-down list provided. If there has been a recent reorganization, the department name may not appear. If so, please bring this to the attention of the curriculum leadership team so the department may be added to your division in the SIS and CMS.

Area of Emphasis

This field has no correspondence with any program Narrative item, but, if not blank, it should be made part of the catalog title and the main title of the program Narrative.

Leave blank except for General Studies AOE degrees. For AOE degrees, enter the emphasis such as "Arts and Humanities."

Option

This field has no correspondence with any program Narrative item, but, if not blank, it should be made part of the catalog title and the main title of the program Narrative.

Leave blank unless the degree or certificate provides options that will have distinct control numbers in CCCCCO MIS. Each option should have its own program outline. These programs are unusual, but examples of such programs include Construction Technology: Building Inspection Option and Construction Technology: Construction Management Option.

Collaborative/Joint Program

This field has no correspondence with any program Narrative item. However, if a program is collaborative or joint, this fact should be noted in the applicable portion of the program Narrative.

"No" is usually the correct choice. An exception would be the Biomedical Device Manufacturing COA or any other program developed in conjunction with another college. If the response is "Yes" then an additional field "Collaborated College" will become visible requesting the name(s) of the other college(s) that collaborate in the program, perhaps by offering some of the required courses in the program or offering laboratory space not available at Ventura College. A file attachment option will also open; upload a copy of the written agreement between the colleges delineating responsibility for curriculum and scheduling.

Apprenticeship

This field has no correspondence with any program Narrative item.

It is visible for all program types except for ADTs. If visible, “No” is usually the correct choice. There are currently no apprenticeship programs in the VCCCD. If “Yes” is selected, then additional fields will become visible, including a field requesting you to upload a copy of the California DAS approval letter, a field allowing the upload of other apprenticeship-related documents, and fields requesting the RSI year and RSI hours.

Gainful Employment

This field has no correspondence with any program Narrative item.

In the past, this was a required field that would usually be answered “Yes” for certificates. Its purpose was to determine whether students selecting the major would qualify for federal financial aid. Due to recent regulatory changes, this information is no longer required, and the field should be left blank.

Employment Potential

This field has no correspondence with any program Narrative item.

This drop-down menu field is only visible for CTE programs (as determined by the response given in the Program Goals field). If the Employment Potential field is visible, select the source of the LMI data file attached to the proposal. Usually this is “LMID EDD Consultant”; select this response if the LMI report was obtained through the Centers for Excellence. The response here should be consistent with the corresponding field in the CP-3 (credit) or NP-3 (noncredit) new program form.

Net Annual Labor Demand

This field, if visible, corresponds to the applicable paragraph(s) of Item 5(B) “Survey” of the completed Narrative.

This free-form text field is only visible for CTE programs (as determined by the response given in the Program Goals field). In this field (and in the Narrative), the Enrollment and Completer information from Item 5(A) of the Narrative must be compared to the net annual labor demand projection stated in the Labor Market Inventory and Analysis document to show that there is sufficient labor demand for the projected number of program completers. The net annual labor demand information must also be consistent with the corresponding information inserted into the corresponding fields of the CP-3 (credit) or NP-3 (noncredit) new program form if this is a new CTE program.

Justification/Reason for Revision

This field has no correspondence with any program Narrative item.

This field is not visible for new programs. For program revisions, list what aspects of the program are changing (*e.g.*, new or inactivated courses, change of focus, *etc.*) and whether this represents a minor or significant change to the program goals or structure. If there are significant changes, the proposal should be treated as a new program rather than as a revision. The CCCCCO no longer distinguishes between substantial and non-substantial changes to programs.

Program Goals and Objectives

This field corresponds to most elements of Item 1 of the completed Narrative. However, do **not** include program-related career opportunities or PSLOs in this field (even though Item 1 of the Narrative may

include these), as these are addressed in other fields in the CMS program outline. The information provided must match the applicable portions of the description provided on the Narrative template.

This field is required for all new and modified programs. The program goals and objectives must be consistent with the mission of the community colleges as established in the California Education Code ([section 66010.4](#)); this includes lower division academic and vocational instruction, remedial instruction, and adult noncredit education.

For transfer degrees, the statement in this field must include the preparation of students for one or more baccalaureate majors. It must describe how the courses listed in the requirements will meet the lower division requirements of related majors at baccalaureate institutions. It must also indicate whether the degree is aimed at students transferring to a specific institution or class of institutions (*e.g.*, CSU or UC).

If the program is selective (*e.g.*, students must apply to be accepted), include a summary of the entry criteria (courses completed, minimum GPA, sponsorship, *etc.*), the selection process, and how the program will satisfy Title 5 requirements relating to open course enrollment ([section 51006](#)) and students' ability to challenge prerequisites ([section 55003\(b\)\(5\)](#)).

If the program, or any courses in the program, require fees or costs that students will incur, document them in this field.

In addition to completing the free-form text box for this field, please append a copy of the completed Narrative document to this field using the green "Attach File" button located immediately below this field's text box. (This information should no longer be sent as a separate attachment to the Student Learning Office; please incorporate into the CIM program proposal instead.) Please use a Microsoft Word (.doc or .docx) file rather than a PDF file for the Narrative in case it becomes necessary to make corrections during technical review. Also send a copy of the Narrative to your division office for their records. It is very helpful to have a date included in the title of the Narrative document, as several versions are typically created during the technical review process, and the dates make it easier to distinguish between these versions when they are stored in the technical review archives.

For new program proposals, also attach a completed copy of the CP-3 (credit) or NP-3 (noncredit) new program form, which you may download from the Curriculum Committee forms web page. CTE-related attachments such as LMIs and consortium recommendations should be attached later in the proposal.

Proposals not having a Narrative document attached will be held until the originator provides one, or they will be rolled back to the originator for action.

Career Opportunities

This field is visible for all program types. It must be completed for all CTE programs and is optional (but highly recommended) for transfer and local programs. It corresponds to the paragraph(s) of Item 1 of the completed Narrative that describe the specific occupation(s) or field(s) that students will be able to enter upon completing this program, and the basic occupational competencies that students will acquire as a result of completing the program.

Catalog Description

This field corresponds to the applicable paragraph(s) of Item 2 of the completed Narrative. Include the introduction to the catalog description of the program. Do **not** list program requirements (lists of

required courses) or PSLOs in this field, as CIM provides separate fields for these elsewhere in the program outline.

Both this field and the Narrative should include at least the following information to the extent that each item is applicable:

- A discussion of the degree or certificate's goals and objectives; if the college offers similar programs, the discussion should distinguish this program from the others, perhaps by describing how its goals, intended audience, targeted careers or transfer majors, or expected outcomes are unique
- A listing of prerequisite skills or enrollment limitations such as TB tests, criminal background checks, *etc.*
- Advice and warnings to students regarding their employability upon completing the degree or certificate; warnings may include information such as whether the degree trains students for competitive or low-salaried occupations, or occupations in which inexperienced graduates are unlikely to be hired
- For CTE degrees and certificates, an enumeration of potential careers students may enter upon completion
- For high-unit programs (more than 60 units), a discussion of how the unit total may impact completion
- For degree- or certificate-related occupations in which a license or certification is generally expected, a statement as to whether completing the program bestows the license or certification immediately, or prepares students to take a licensing or certification examination; if applicable, the discussion should include whether the program departs from accreditation or licensing standards, and in what specific ways
- If the program is part of a progressive award structure (*e.g.*, it is part of a sequence of stackable certificates), a discussion of the award's place in the progression

For ADTs (but not UCTPs or other awards), the following statutory language must appear at the end of the catalog description:

The Associate in <Arts/Science> in <discipline> for Transfer (<discipline> <AA-T/AS-T>) is intended for students who plan to complete a bachelor's degree in <discipline> or a similar major at a CSU campus. For a current list of what majors (and what options or areas of emphasis within that major) have been designated as "similar" to this degree at each CSU campus, please refer to <https://adegreewithaquarter.com/en-us/find-your-path> and seek guidance from a Ventura College counselor. Students completing this degree are guaranteed admission to the CSU system, although not necessarily to a particular CSU campus or major.

Students transferring to a CSU campus that accepts the <discipline> <AA-T/AS-T> will be required to complete no more than 60 units after transfer to earn a bachelor's degree (unless the major is a designated "high-unit" major at a particular campus). This degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements.

Program Requirements

This field corresponds to the applicable paragraph(s) of Item 2 (ADTs and UCTPs only) or Item 3 (all other program types) of the completed Narrative. (This is one of the few CIM fields for which it may make sense to complete it in CIM before transferring the information to the Narrative, to take advantage of the table formatting features in CIM.)

Complete for all new or revised awards. At minimum, this should include a list of all major courses, including core courses and restricted electives, and total units in the major. Do not include courses that are GE but do not apply to the major. However, for transfer degrees only (ADTs and UCTPs), obtain this information from the TMC instead (but do not copy and paste the TMC form directly into CIM; use CIM's formatting tool instead to structure the course lists).

Within each subsection (Core, List A, List B, etc.), alphabetize courses by discipline and ID number whenever possible. This makes the requirements easier for counselors and students to read.

Do not include course sequencing or plan(s) of study in this section; there is another field in CIM for this information.

For ADTs (but not UCTPs or other awards), the following statutory language should precede the list of required courses:

To earn an Associate in <Arts/Science> in <discipline> for Transfer degree, students must meet the following requirements:

(1) Complete 60 semester units or 90 quarter units that are eligible for transfer to the California State University, including both of the following:

(A) The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth (CSUGE-Breadth) Requirements.

(B) A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.

(2) Obtain a minimum grade point average (GPA) of 2.0 in all CSU transferable coursework. While a minimum GPA of 2.0 is required for admission, some transfer institutions and majors may require a higher GPA. Please consult with a counselor for more information.

(3) Obtain a grade of "C" or better or "P" in all courses required in the major. Even though a "P" grade is allowed (Title 5 section 55063), it is recommended that students complete their major courses with a letter grade ("A," "B," or "C") due to unit limitations on "P/NP" courses.

(4) Complete a minimum of 12 units in residence at Ventura College.

The basis for items (1) and (2) above is SB 1440 ([Ed Code Section 66746](#)), and the basis for items (3) and (4) is [Title 5 Section 55063](#).

Plan of Study

This field corresponds to the portion of Item 3 of the completed Narrative that relates to course sequencing. (This is one of the few CIM fields for which it may make sense to complete it in CIM before transferring the information to the Narrative, to take advantage of the table formatting features in CIM.)

This field is not required for transfer degrees but should be completed for all other proposals. If certain required courses for the program are not offered every semester, this field should give an idea of the

specific semesters in which students may reasonably expect these courses to be offered. Program-applicable courses should be run at least once every two years, regardless of enrollment; otherwise students cannot complete the program in a reasonable amount of time, in contravention to accreditation requirements. Programs whose required courses do not make at least once per biennium should be modified to exclude problematic courses or provide alternative course selections.

Plans of study for local and CTE associate degrees should aim for completion within two years, except for high-unit programs. For these degrees, listing recommended GE courses is optional, but the number of units per semester allotted for major courses should be low enough (typically 8–10) to allow for concurrent completion of general education requirements. Prerequisite relationships must also be accounted for (*e.g.*, advanced courses should not be scheduled in earlier terms than beginning courses).

Enrollment and Completer Projections

Ideally, this field should correspond to Item 5(A) of the completed Narrative; however, there is no good way to enter the required tabular data for Item 5(A) into the CMS. A statement of the estimated annual enrollments and completers in the CMS data field will therefore have to suffice. This field is not required for transfer degrees but should be completed for all other proposals. In the Narrative, provide enrollment data from the past two years for each course satisfying program (major) requirements. A tabular format is often helpful, and the Narrative templates provide examples. The figures presented should be end-of-term enrollments, not census enrollments.

Simply stating a one-line estimate of program completers in the CMS without supporting data is not sufficient. Enlist the assistance of the Institutional Effectiveness division or the (state) Chancellor's Office Data Mart to obtain the expected supporting data, or include a brief discussion of the relationship between recent enrollment numbers and expected completers.

Place of Program in Curriculum/Similar Programs

This field corresponds to Item 6 of the completed Narrative. It is not required for transfer degrees but should be completed for all other proposals. This data entered should provide answers to the three following questions:

- a) Do any active inventory records (other active programs) need to be made inactive or changed in connection with the approval of the proposed program? If yes, please specify.
- b) Does the program replace any existing program(s) on the college's inventory? Provide relevant details if this program is related to the termination or scaling down of another program(s).
- c) What related programs are offered by the college?

If related programs are offered, the information presented in the Catalog Description field (and corresponding portion of the Narrative) should clearly distinguish this program from the related programs so students have a better idea which program would be most beneficial for them to pursue.

Similar Programs at Other Colleges in Service Area

This field corresponds to the portion of Item 7 of the completed Narrative that relates to similar programs offered at colleges within commuting distance of Ventura College, including Oxnard and Moorpark as well as nearby colleges in other districts. It is not required for transfer degrees but should be completed for all other proposals. The data provided should briefly describe each such program (catalog descriptions of the other colleges' programs may suffice; use the Attach Files button immediately following this field if needed). Describe similarities and differences between this program

and the other colleges' programs and justify why Ventura College should also have this program.

Possible reasons include, but are not limited to, any of the following:

- Other colleges' programs do not satisfy regional demand
- Ventura College's program would have a different emphasis or market from the other colleges' programs
- Transportation or other logistical issues make it unlikely that the Ventura College program would cause the other colleges' similar programs to suffer an enrollment decline
- Ventura College's program would have industry or university partnerships that could not be matched by the other colleges' programs
- Ventura College's program would include state-of-the-art offerings not available through the other colleges' programs
- The program is a collaboration between Ventura College and one or more of the other colleges that, if approved, would increase program completions, perhaps by making it easier for more students to enroll in or complete required courses

Transfer Preparation Information

This field has no correspondence with any program Narrative item.

It is only visible for transfer programs. Attach any supporting documents that do not fit elsewhere in the program proposal. Do not attach TMC, AAM, BCT, or GECC documentation here, as there are places for these elsewhere in the CIM program outline. Supplemental articulation agreements with feeder CSU institutions might be included here.

Master Planning

This field corresponds to Item 4 of the completed Narrative. It is not required for transfer degrees but should be completed for all other proposals. Its contents should discuss the anticipated role of the program in fulfilling the college's mission, the district's master plan, and (for credit programs) statewide master planning, as required by [Title 5 sections 55130\(b\)\(6\) and 55130\(b\)\(7\)](#).

The discussion may also include (as appropriate to illustrate the program's role)

- The history or other context for the program
- How the program is relevant to the college or region, including statements of community support
- Documentation of the need for the program (references may be provided to other sections of the Narrative rather than duplicating information provided elsewhere)
- Discussion of how the need for the program was identified through the program review process, and how it is expected that program review will periodically assess the continuing need for the program
- Documentation of the need and justification for expenditures for new faculty hires, facilities (including renovation or new construction), and equipment to establish and maintain the program (programs requiring large expenditures for facilities and equipment must itemize expected program-related costs and revenues for the next several years)
- Justification of required courses if there is not a clear relationship between the course and program goals
- Justification for high-unit programs (those exceeding 60 units including GE)

- For CTE programs only, if offered in close cooperation with one or more specific employers (*e.g.*, Haas, Ohana, *etc.*), a discussion of any employer facilities or support-in-kind the program will use, and how the college will satisfy open enrollment requirements in this context
- For CTE, references to attached recommendations from regional consortia and/or advisory committees

Labor Market Information and Analysis

This field has no correspondence with any program Narrative item.

It is only visible for new CTE programs. Use the Attach File button below the text box to attach a copy of the LMI report. The originator may optionally include a summary or other discussion of the LMI in the text box portion of the field.

Advisory Committee Recommendation

This field corresponds to the portion of Item 3 of the completed Narrative in which the advisory committee's thinking (in relation to formulating its recommendation) is documented. The field is only visible for new CTE programs. Use the text box portion of the field to discuss the advisory committee's approach in developing the recommendation. The advisory committee may recommend against implementing the program but cannot block the college from creating it. However, if the college departs from the advisory committee's recommendation, it must also explain the departure here.

In addition, use the Attach File button below the text box to attach a copy of the minutes from the advisory committee meeting(s) during which the committee formulated its recommendation for the program. These minutes should be referenced in the text box portion of the field and in Item 3 of the Narrative.

Regional Consortia Approval Meeting Minutes

This field has no correspondence with any program Narrative item.

This field is only visible for new CTE programs. Use the Attach File button below the text box to attach a copy of the minutes from the regional consortium meeting during which the group formulated a recommendation for the program. The regional consortium may recommend against implementing the program but cannot block the college from creating it. The originator may optionally use the text box portion of the field to summarize or discuss the recommendation. These minutes should be referenced in Item 7 of the Narrative.

Supporting Documents Required for Transfer Program

This field has no correspondence with any program Narrative item.

This field is visible for all programs, but only needs to be completed for transfer programs. Check the boxes indicating the supporting transfer documentation that will be attached to the CIM proposal. This is where the TMC, AAM, BCT, GECC, and other articulation support documents may be attached. The articulation officer will usually generate and attach these documents. Documentation may also be provided via the text boxes when appropriate.

If a local program is intended to address community need, this is where the documentation for the need may be attached or input to the program proposal.

Program Student Learning Outcomes

This field corresponds to the last portion of Item 1 (ADTs and UCTPs only) or the last portion of Item 2 (all other program types) of the completed Narrative. Enumerate the PSLOs for the program, using a separate box for each outcome. These must agree with the PSLOs in TracDat.

Required Major Units/Hours

This field has no correspondence with any program Narrative item. However, the information requested may be obtained from the Narrative item in which course requirements for the program are listed.

Document the minimum and maximum number of major units (credit) or hours (noncredit) a student must successfully complete to earn the program award. The curriculum leadership team can assist faculty in determining these numbers. For transfer degrees, it is often best to refer this task to the articulation officer. Do not include GE units in this total.

This field has no correspondence with any program Narrative item.

For new programs, either leave this blank for the technical review team to complete, or use a [crosswalk](#) to look up the CIP code associated with the TOP code. Faculty Workload

This field has no correspondence with any program Narrative item.

For new programs, the number should match the value provided on the CP-3 (credit) or NP-3 (noncredit) form.

For new programs, the number should match the value provided on the CP-3 (credit) or NP-3 (noncredit) form. Discuss and justify new faculty positions in Item 4 of the program Narrative and in the Master Planning field in the program outline.

Distance Education

This field has no correspondence with any program Narrative item.

Estimate the percentage of the program that students may complete by taking distance education courses. Select the corresponding range from the drop-down menu. Select 100% if there is any pathway to the degree for which all the core courses and a sufficient number of restricted electives and general education courses are approved for offering via distance education such that a student could complete the program (at least theoretically) by enrolling only in classes taught via distance education modalities (51% or more online). For degree programs, include general education courses as well as major courses. Weight the percentage estimate by number of courses rather than by number of units.

Example 1: A certificate of achievement with five core courses, four of which were approved to be offered online, would be 80% online, even if not all the courses awarded the same number of units.

Example 2: Another certificate of achievement with four core courses (all approved to be offered online) plus a restricted elective could be either 80% online (if none of the restricted electives were approved for an online modality) or 100% online (if one or more of the restricted electives were approved to be offered online). In the latter case, the certificate would be 100% online even if not all the restricted electives were approved for DE, provided that at least one of them was.

It does not matter whether the courses are offered online in practice, only that they could be in principle. However, do not count courses for which distance education is only approved for use in emergency situations. The curriculum leadership team can provide you with data to help you determine which courses are approved for DE.

Approval Dates

Do not edit the approval dates or state control number if they are visible. These are the responsibility of the curriculum technician to complete. Exception: If you created a program by making a copy of an

existing program (for example, if you created an Associate Degree program by copying a Certificate of Achievement program outline in the CMS), the new program outline may still display the original program's state control number. Please blank this out so the curriculum technician may complete it later with the new number assigned by the state following chaptering or approval. Every program has a different control number, even linked AS and COA programs; do not re-use an old control number from a COA when creating a linked AS or vice-versa.

If you still have questions regarding any of these fields after reading about them, please refer them to the curriculum leadership team.
