Dear Student,

Thank you for applying for a degree or certificate from Ventura College. After completing a careful review of your application, we are unable to confer your Fall 2020 degree or certificate because not all graduation requirements have been completed during the Fall 2020 semester.

Your application has been submitted to the counseling department for a second review, and adjustments were made to make you eligible for graduation in an upcoming semester, provided you successfully complete your outstanding classes. Your application has been automatically resubmitted for graduation in the Spring 2021 semester, without any further action on your part.

We encourage you to continue pursuing your degree or certificate and are here to support you in achieving your academic goals.

Thank you,
The Admissions & Records and Counseling Teams
