

Orfalea Child Development Center at Ventura College

Pesticide Use Notification

Dear Families,

The Healthy Schools Act of 2000 (as amended by Assembly Bill 2865, Chapter 865, Statutes of 2006) requires that all schools and child day care centers provide parents or guardians of children who are enrolled at the facility with annual written notification of expected pesticide use at schools and day care centers. The notification will identify the active ingredient or ingredients in each pesticide product and will include the Department of Pesticide Regulation's School Integrated Pest Management (IPM) Web site (<http://www.schoolipm.info>) for further information on pesticides and their alternatives. As of the Fall 2007 semester, The Center's pesticide use policy and any plans for pesticide use during a given school year will be included in the family handbook distributed to every enrolled family each year.

Parents or guardians may request prior notification of individual pesticide applications at the school or day care center. Beginning August 20, 2007, people listed on this registry will be notified at least 72 hours before pesticides are applied. If you would like to be notified every time a pesticide is applied, then please complete the tear-off below and return it to the Center office. Please let me know if you have any questions regarding the Center's pesticide use policy.

Sincerely,
Orfalea Director

Orfalea Child Development Center at Ventura College

Request for Individual Pesticide Application Notification

I understand that, upon request, the child day care center named above is required to supply information about individual pesticide applications at least 72 hours before application. I would like to be notified before each pesticide application at the site listed above.
