"Earthquake" October 2022

arios

It is approaching the third month of the new fall semester. It is early in the morning and you are in Guthrie Hall in a meeting with 25 of your peers. Everyone is working together for an upcoming event on campus. Suddenly, you get the sensation that the earth moved. It is a strange sensation and you are confused and filled with anxiety. Approximately 5 seconds pass and a strong jolt is felt by all. Several of the people in the room scream and cover under their desks. The strong jolt is now interrupted by several, strong "rollers." Ceiling tiles begin to fall from above. The shaking lasts about one minute. It is eerily quiet. Several of your peers are visibly shaken and crying. The shaking has stopped and it is time to go to your designated "Assembly Area". Please see the evacuation map below to find the closest evacuation route to your location.

Active Shooter Procedures

Response: RUN, HIDE, FIGHT

A – Alert – Be aware of the early warning signs: look for entrances and exits.

L – Lockdown – Lock doors and windows, close blinds or shades, turn off light, silence cell phones and do not huddle together.

I – Inform – Call 911 or activate Revolution app on your cell phone. If calling 911, stay on the line to provide updated information as to the who, what, where, when, and how many.

C – Counter – This is a last resort. Create chaos, scream, throw distractions, take control of the limbs of the assailant.

E – Evacuate – This is the best option **if it is safe to do so.** Leave all belongings behind, leave on foot and get off campus.
