Notes:

- Drop is ending enrollment in a course before census date and results in no entry as final grade.
- Drop % is Drop count divided by Pre-Census Enrollment.
- Withdraw, Retention, and Success counts are for students enrolled at census.
- Withdraw is ending enrollment in a course after census date and results in a final grade of W,MW,EW.
- Withdraw % is Withdraw count divided by Census Enrollment.
- Retention is enrollments at census with final grade of A,B,C,D,F,P,NP,I\*,IPP,INP,FW.
- Retention % is Retention count divided by Census Enrollment.
- Success is enrollments at census with final grade of A,B,C,P,IA,IB,IC,IP.
- Success % is Success count divided by Census Enrollment.
- All percentages are rounded to a whole number. Total may not add up to 100%.

Sample Size Considerations<sup>1</sup> [for disproportionate impact]

Exercise caution when highlighting ratios for particularly small groups of students at your college, as the data collected may not be sufficient to determine if disproportionate impact has occurred. ... A minimum cell size of 60 for each group (e.g., males, age 30-39, Pacific Islander) is a commonly used practice for examining disproportionate impact for a specific group.
