Request Process

To request a Lending Library Textbook, students must make a request through the Library catalog, OneSearch. Each step of the process is outlined below.

Step 1: Find What Textbook You Need at the Bookstore Website

Use the Bookstore's [Textbook Finder](#) to determine what textbook is required for your course. Take note of as much information as possible including the textbook title, author(s), year of publication, edition, and ISBN. You may also be able to check or verify your course textbook by contacting the course instructor, or by checking the course syllabus if the course Canvas page is available.
