Welcome to FUSION2!

FUSION v2.1 will be released on January 19, 2021

This new version of FUSION has been months in the making, and includes several important enhancements, including:

- * An optimized user experience
- * Vision for Success scoring updates
- * ADA updates

The October 2019 FUSION2 update includes a wide range of features and improvements, such as:

- * Cross-browser compatible, responsive Home screen
- * Ad Hoc Reporting enhancements and new District Land dataset
- * DF-14D forms, invoicing, and quarterly reporting
- * Capital Outlay project change requests
- * Enhancements for Design-Build projects, including ability to switch between Traditional (Design-Bid-Build) and Design-Build project delivery method
- * Various project related updates, such as single-page JCAF32 form, additional cost estimate settings, improved construction site cost menu for cost estimation, Project Intent & Scope report updates, and improved project CCI updates
- * New Intercom articles/support (replaces FreshDesk)
