				Prog	Area		
AA	Library	LIB2203	The Library / LRC building is nearing 18 years in age. Part of the building are really starting to show their age (e.g., the fiberglass panels over the Reference Desk and also over the atrium) are really filthy and gross. Even worse, water intrusion from the fiberglass panels is now causing calcium deposits and rust to appear on the beams spanning the Reference Desk. Over the last five years or so, more and more calcium and now rust has appeared. We are fearful that should corrective action not be taken soon, the beams will weaken and the cost to repair will be super expensive.	11		FY 24/25	Capital Improvement
AA	Mathematics and Computer Science	MAT2202	Upgrades to Math Offices: The math department offices are highly used and continually needed spaces to serve all VC students well. However, due to Market Place abuse on the weekends and outdated buildings, our offices are in very poor shape. Faculty would like to do some minimal upgrades to make these spaces more healthy, up to date, and effective for faculty and student use. Upgrades include installation of whiteboards within offices (\$1200), and some replacement of carpets in a few offices with black mold (\$5500).	02	2	FY 23/24	Scheduled maintenance
