

Our Goal

At the Ventura College Educational Assistance Center, our goal is to provide students with disabilities an equal opportunity to participate in the educational activities offered at Ventura College.

Qualified students with disabilities are given services and accommodations to meet their educational needs along with the special classes needed to prepare them for success in general college classes.

Educational Assistance Center

For students who have documented disabilities that present a barrier to the learning process.

EAC

We've Got You!

The Educational Assistance Center (EAC) promotes the educational and vocational potential of students with disabilities by supporting each student's integration into the mainstream of college life. Students with learning disabilities, mobility, visual, hearing, speech, or psychological difficulties, acquired brain injuries, or other health ailments, such as seizure disorders or attention deficit/hyperactivity disorder, are eligible for support services and special classes that are needed to fully participate in the educational process.

Eligibility

Services are available to all currently enrolled Ventura College students who have documented disabilities that present a barrier to the learning process.

Documentation

Students must provide documentation to determine eligibility and reasonable accommodations. We accept Individual Education Plan (IEP/504 plan), Psycho-Educational Report (can be obtained from high school), letters from a physician's office indicating diagnosis, or Disability Verification Forms (DVF) forms that can be obtained in our office or website.

Confidentiality

Submitted documentation is used for the purpose of determining eligibility. Under FERPA, staff cannot discuss student information with parents and faculty without a student's permission.
