Default Report

Q1 - Committee Charge: The College Planning Committee (CPC) is a governance committee that makes recommendations to the College President. CPC is responsible for developing the Educational Master Plan and Strategic Implementation Plan, as well as evaluating progress towards the goals of each of these plans. CPC receives regular updates on the Facilities Master Plan, and the Technology Master Plan, and also oversees and evaluates the program review and program viability processes. CPC receives recommendations from the Budget Resource Committee, Guided Pathways Committee, Student Success Committee, and the Accreditation Steering Advisory Group. Recommendations from these committees are reviewed and voted on by CPC before being sent to the College President to ensure that the recommendations align with the Educational Master Plan, and that all relevant processes and procedures have been followed. Does the business of the committee reflect the committee charge?
